DRAFT RULES FOR THE SUPPLY OF FILTERED WATER TO PRIVATE PREMISES IN THE BERHAMPORE MUNICIPALITY.

1. So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of part VII of the Bengal Municipal Act, 1884, on the annual value of such holding when such annual value is not less than Rs. 100, to lay down communication pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions.

2. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied free of cost at the Municipal office.

3. A fee of Rs. 18 including Rs. 2 as inspection fee must be paid to the Commissioners by such owner or occupier for each holding connection before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

4. Each holding must have a separate connection and extensions from the communication-pipe of one holding to another shall not be permitted.

5. The owner or occupier of the holding in respect of which the connection is required, must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

6. (i) The work required may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the work is required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(*ii*) The work must be done under the supervision of an officer appointed by the Commissioners in this behalf, and no connection must be made with the Municipal water-main except at such time as may be appointed, and in such position as may be selected by an authorised Municipal Officer.

7. A holding connection shall comprise the following parts or fittings :—

(*a*) A brass or gun-metal ferrule inserted in the main supply pipe;

(*b*) A galvanised iron communication-pipe from the ferrule to the meter;

(*c*) A stop-cock and its surface-box;

(*d*) A meter;

(*e*) Service pipes from the stop-cocks to the taps, and

(*f*) Taps.

8. (*i*) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(*ii*) All fittings shall be inspected and tested and stamped by an officer of the Municipality before being fixed.

(*iii*) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fitting so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The size of the ferrule referred to in clause (*a*) of rule 7 shall be decided by the Commissioners, but its diameter shall not differ from that of

the communication-pipe referred to in clause (*b*) of that rule by more than ¼ inch.

10. (*i*) The diameter of the communication-pipe shall be determined with regard to the average pressure in the main supply-pipe at the point nearest the holding for which a connection is required, and to the quantity of water to be supplied.

(*ii*) The diameter of the communication-pipe shall be such that it will be capable of delivering the estimated daily supply in six hours.

(*iii*) The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until this test has been applied by the Commissioners.

11. (*i*) On every communication-pipe a brass or gun-metal stop-cock having the same water-way as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(*ii*) The stop-cock shall be built in a brick chamber provided with a cast iron surface cover-box so designed that it can be locked.

(*iii*) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (*i*) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(*b*) a further proportionate number of gallons per quarter for every additional fraction of a rupee,

	As.
(*a*) For any excess quantity of water not exceeding 4,000 gallons	8
(*b*) For any excess quantity of water exceeding 4,000 gallons	12

15. If the owner or occupier of any holding which is supplied with water under these rules shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of one month after he has been served with a notice of demand for the same, the Commissioners may, at any time after the expiration of that period, and without further notice, disconnect any pipe forming part of the connection made in respect of such holding and may recover the cost of disconnecting such pipe from such owner or occupier;

Provided that the disconnection of such pipe shall not relieve any person from any liabilities which he may have incurred under these rules.

16. (*i*) Every tap shall be of the same size as the pipe to which it is attached, and shall be of brass and of the pattern known as screw-down or push-cock. Every tap shall be at least three feet above the road level.

CALCUTTA, *the 25th May 1915.*

PROSPECTUS.

[APPROVED BY THE GOVERNMENT OF BENGAL.]

ON the 2nd of July next, the Government of Bengal will open at Hastings House, Alipore, a residential school for the sons of Indian gentlemen. The Hastings House property has been placed by the Government of India at the temporary disposal of the Government of Bengal for this purpose.

Hastings House will provide accommodation for 50 boarders. The complete scheme which has now been sanctioned provisionally by the Secretary of State for India contemplates the admission of this number of boarders as a minimum and the engagement of a staff consisting of an English Head Master, with two English and six Indian Assistant Masters. The English Head Master and the two English Assistant Masters will reside on the premises.

Owing to difficulties which have arisen as a result of the war in Europe, it has been decided to make a start with a smaller staff and a reduced number of boys. Mr. W. F. Papworth, B.A. (University of London), has been engaged as an Assistant Master, and he, with the assistance of a staff of four Indian Assistant Masters, will start the school.

The school will be under the immediate supervision of the Director of Public Instruction. There will also be an Advisory Committee of Indian gentlemen.

The number of boarders to be admitted in July next will be restricted to an absolute maximum of 40. The original scheme provides for the education of boys from the age of 10 up to the age of 18, and directs that an age-limit of 10—13 years shall be observed in granting admission to new boys. It has been decided, however, that during the first three years of the school's existence, some latitude will be allowed in the matter of age-limits for admission. Preference will usually be given to those boys whose ages are within the limits specified in the original scheme, but it will for the present be within the discretion of the Assistant Master-in-charge to admit boys whose ages do not fall within these limits.

The school is to be essentially a boarding school, but, to start with, a few day scholars may be admitted with the special sanction of the Director of Public Instruction, Bengal.

Curriculum.—The medium of instruction will, in all cases, be English; but the study of the Vernacular and Classical Oriental Languages will form a compulsory part of the curriculum. The work of the school has been arranged to suit not only those boys who will ultimately proceed to British Universities, more especially Oxford or Cambridge, but also boys who will complete their studies at one of the Indian Universities. To secure both these aims it has been decided to adopt for the first few years the Cambridge University Local Examinations as the standard by which the school work may be gauged.

The school will be divided into Forms in the manner indicated below :—

LOWER SCHOOL—

Form I.
Form II.

UPPER SCHOOL—

Form III.
Form IV (Lower).
Form IV (Upper. Cambridge Junior Local Examination).
Form V.
Form VI (Cambridge Senior Local Examination).

The standard of work in the school will not be restricted to the requirements of the Cambridge Local Examinations. From the outset the curriculum will be directed with a view to taking the examinations of the Oxford and Cambridge Schools Examination Board for Lower and Higher Certificates, as soon as the necessary arrangements can be concluded with the Board in England.

Boys, whose parents or guardians desire it, will be sent up for the Matriculation Examination of the Calcutta University. In this connexion, however, it may be pointed out that the Cambridge Senior Local Examination, if passed under certain conditions, which include at present a course of further study for *one* year after the examination has been successfully taken, is recognized by the University of Calcutta as admitting students direct to the B.A. and B.Sc. courses. The rules which regulate the recognition of the Cambridge Local Examinations are now under consideration by the Syndicate, and the examinations of the Oxford and Cambridge Schools Examination Board have not yet come within the purview of the University of Calcutta. The Syndicate will be approached with reference to the recognition of the Higher Certificate awarded by the Oxford and Cambridge Schools Examination Board for the purposes of admission to Calcutta University courses. This certificate is accepted under certain conditions by the Universities of Oxford and Cambridge as exempting its holder from Responsions at Oxford or the Previous Examination at Cambridge.

The Assistant Master-in-charge desires to emphasize the fact that public examinations of the nature indicated above are valuable only in so far as they serve as a standard of the actual work of a school. These examinations will be taken as a matter of course at certain stages of the school curriculum; all the boys in Form IV (upper) and Form VI will, for example, be presented, so long as the Cambridge Local Examinations are taken, for the Cambridge Junior and Senior Local Examinations respectively. The private coaching of pupils of the school by members of the staff will not be allowed; but if the Assistant Master-in-charge considers that any particular boy requires additional tuition, he will make the necessary arrangements for this to be given by one or more of the masters of the school, who will not receive any remuneration for the extra work involved.

Fees.—For boarders Rs. 100 / For day boys „ 25 } a month, payable for 12 months.

These fees include, in the case of boarders, tuition, board and lodging; in the case of day-boys, tuition.

There will be a further charge of Rs. 5 a month, payable for 12 months, to cover laundry, subscriptions for games, the supply of stationery and medical attendance. Day boys will be charged a sum of Rs. 2-8 a month, payable for 12 months, to cover games and stationery charges.

Bills and the payment of fees.—Bills will be sent out on the first day of each month and should be paid to the Assistant Master-in-charge before the fifteenth day of the same month. Parents and guardians are requested to note that the school fees and the charge for extras are annual charges paid in monthly instalments, and as such must be paid for every month of the year. When a boy is to be removed from the school, at least a month's notice of withdrawal should be given; in default of such notice a month's fee will be charged. The Assistant Master-in-charge trusts that parents and guardians will, as far as possible, refrain from withdrawing boys, except at the end of a term.

Pocket money.—Parents and guardians will be asked to state the amount of pocket money they wish their boy to receive. The amount agreed upon will be paid to the boys by the Assistant Master-in-charge. No boy in the Upper School will be allowed to have more than Re. 1-8 a week; and no boy in the Lower School more than annas 12 a week.

Subjects of study.—The following table shows the subjects which will be studied in each Form:—

FORMS I AND II.—English, Arithmetic, History, Geography, Drawing, Manual Instruction, Hygiene, Vernacular.*

FORM III.—English, History, Geography, Mathematics, Drawing, Manual Instruction, Sanskrit or Arabic, Hygiene, Vernacular.*

FORMS IV, V AND VI.—The same subjects with the addition of Latin. Pupils who do not take Latin will be given extra instruction in Sanskrit or Persian.

School books.—Boys will be required to provide themselves with the necessary text-books. If desired, books may be purchased at the school.

* The study of an Indian Vernacular will be compulsory in each Form.

A list of the books which will be used is given below. The special set books for the first school year are marked by an asterisk. In no case should any book be purchased, until a boy has been definitely placed in a certain Form.

BRITISH POSSESSIONS.

CAUTION WHEN APPROACHING BRITISH PORTS.

No. 115 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 274 of 1915), are republished :—

PART I.

CLOSING OF PORTS.

Former Notices.—Nos. 1 and 101 of 1915 (*This Office Nos. 45 and 73 of 1915*); hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing

and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) **If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.**

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

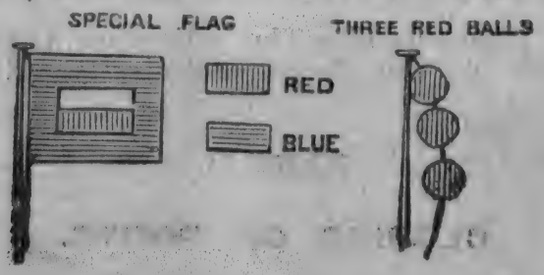
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Examination Anchorage. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all-round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.



By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the distinguishing signal of their vessel ready to hoist immediately the Examination Steamer makes the signal.

(9) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there, or keep the sea.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats (except to avoid accident), communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer.

(10) In case of fog, Masters are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(11) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night: the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

SWEEPING OPERATIONS.

H.M. Vessels are constantly engaged in sweeping operations off ports in the United Kingdom.

Whilst so engaged, they work in pairs connected by a wire hawser, and are consequently hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which these vessels are engaged, they will show the following signals :—

A black ball at the foremast head and a similar ball at the yardarm, or where it can best be seen, on that side on which it is dangerous for vessels to pass.

For the public safety, all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying this signal, and should especially remember that it is dangerous to *pass between* the vessels of a pair.

The Report of the Bengal District Administration Committee, 1913-14.

THE question of the administration of the district of Mymensingh has been before Government since the year 1876, and the problem of dividing it into manageable charges has become continually more urgent. The state of the case as it stood in 1912 was set out in the Resolution quoted above It was proposed to establish a new district, consisting of the existing subdivisions of Jamalpur and Tangail, with headquarters probably at Jamalpur. It was suggested that the remainder of the district might remain as one district, the creation of a third district being left to the future. Opinions were invited on this proposal. The matter was subsequently considered at a conference held at Mymensingh on the 24th July 1912. All parties at the conference agreed that some method of strengthening the administration of the district was absolutely necessary. A section of the educated Hindu community was, however, still opposed to any partition

of the district, and was prepared to acquiesce in a scheme for the duplication of officers and the creation of more subdivisions. There was a consensus of opinion in favour of the extension of railway communications throughout the district; and many thought that the partition of the district might be deferred until the new railways had been opened and their effect had been observed. At a Durbar held at Dacca on the 28th July 1913, His Excellency the Governor made the announcement that his Government had come to the conclusion that in the public interests the partition of the district was necessary. He promised, however, that the public would again be consulted before a definite scheme was ultimately adopted.

2. The question has been further considered by the Bengal District Administration Committee, who are of opinion that the best possible scheme would be the division of the existing district into three, viz., (1) a south-eastern or Kishorganj district, (2) a western or Gopalpur district, and (3) a central and north-eastern district, with its head quarters at Mymensingh. The Committee propose that the Kishorganj district should be a compact area bounded by the Brahmaputra and the Meghna rivers on the east, south and west, with an area of 1,630 square miles and a population of 1,366,407, its headquarters being at Kishorganj. This proposed district would consist of three sub divisions which are detailed below :—

Proposed Kishorganj district.

Subdivision.	Police-station.	Population.	Area in square miles.
Sadar ...	Kishorganj ...	190,604	224
	Kathiari ...	178,430	173
	Total ...	369,034	397
Bhairab ...	Bhairab ...	53,513	70
	Bajitpur ...	155,645	220
	Astogram ...	97,897	130
	Badla ...	146,630	168
	Khaliajuri ...	39,763	61
	Total ...	493,448	649
Iswarganj ...	Iswarganj ...	195,786	204
	Kendua ...	175,868	267
	Nandail ...	132,271	113
	Total ...	503,925	584
	District Total (10) ...	1,366,407	1,630

After a careful examination of the relative merits of different sites for the headquarters of the three subdivisions in the district, the Committee recommend Kishorganj as the headquarters of the Sadar subdivision, and Bhairab and Iswarganj as the headquarters of the subdivisions of those names. The town of Bhairab, though not centrally situated, is considered by them to be more suitable than either Bajitpur or Nikhli, because the natural lines of communication converge on it. It is a steamer station and may soon become a railway terminus also. It is considered to be healthy and is the most important trade centre in the area.

3. The proposed new Mymensingh district, with an area of 2,610 square miles and a population of 1,421,490, would still be large. It would include three subdivisions, viz., (1) North Mymensingh or Phulpur, (2) South Mymensingh or Sadar, and (3) Netrakona, as detailed below :—

Proposed Mymensingh district.

Subdivision.	Police-station.	Population.	Area in square miles.
North Mymensingh or Phulpur.	Phulpur	215,129	231
	Haluaghat		167
	Nalitabari	124,553	285
	North Kotwali (approximate).	50,000	10
	Total ...	389,682	723
South Mymensingh or Sadar.	South Kotwali (approximate).	175,337	102
	Trisal		194
	Muktagacha ...	96,407	141
	Phulbaria	130,631	187
	Gafargaon	189,769	160
	Bhaluka		283
	Total ...	592,144	1,067
Netrakona ...	Netrakona	189,857	259
	Durgapur and Kalamakanda.	127,035	382
	Barhatta	122,772	179
	Total ...	439,664	820
	District Total (14) ...	1,421,490	2,610

The Committee think that the headquarters of the first two subdivisions may for the present both remain at Mymensingh, while Netrakona might be the headquarters of the new subdivision of that name.

4. The remaining portion of the existing district, consisting of its entire western side, would form the third proposed district. It would comprise the

whole of the present Tangail and Jamalpur subdivisions, excluding the Nalitabari police-station. In selecting a site for the headquarters of this district, the Committee have carefully considered the relative claims of the towns of Tangail and Jamalpur. While the Tangail subdivision is the heavier and more important of the two, the town of Tangail is very unhealthy. If either Tangail or Jamalpur is chosen, the headquarters would be at one end of the district, and new subdivisional headquarters would be required in addition to the district headquarters. The Committee are therefore inclined to the suggestion that the headquarters should be located in the centre of the district within the jurisdiction of the Gopalpur police-station at a healthy place near the junction of the proposed railways from Jamalpur to Tangail and from Subarnakhali to Mymensingh. The exact situation of this place might be determined when the final alignment of these railway lines is settled. If, however, the choice is confined to the towns of Jamalpur and Tangail, the Committee unhesitatingly prefer the former. Meanwhile this proposed new district may be styled by the name of Gopalpur.

5. The third district would consist of three subdivisions. The northern part would form the Jamalpur subdivision with headquarters at Jamalpur, the central portion would be included in the Sadar subdivision, while the southern portion would constitute the new Tangail subdivision, as detailed below :—

Proposed Gopalpur district.

Subdivision.	Police-station	Population	Area in square miles.
Sadar ...	Sarisabari ...	79,905	113
	Gopalpur ...	218,232	273

6. The Governor in Council has reconsidered the whole question with great care. He has been much impressed by the arguments of the Committee regarding the urgent necessity of reorganizing the village systems throughout the province with the object of bringing the officers of Government into closer touch with the people. His Excellency in Council is persuaded that in no place is this reform more essential than in the existing district of Mymensingh, and he concurs in the fullest degree in the opinion expressed by the Committee that the reform of the village system has no real chance of success, unless not only the districts but also the subdivisions are of a manageable size. In other words, he has come to the conclusion that the proposal of 1912, as also the earlier proposal for the creation of two districts with joint headquarters at Mymensingh, would be an inadequate solution of the main problem, and would hamper the establishment of closer and more friendly relations between the rulers and the people. The Committee propose that the district of Mymensingh should be divided into three, and that at the same time the number of subdivisions should be raised from five to nine, three within each of the new districts. The general lines of division as indicated by the Committee commend themselves to His Excellency in Council, who desires, however, to give the public an opportunity of expressing their views on the scheme before it is further proceeded with.

7. In this connection mention may be made of the several schemes of railway extension which have been approved or are under contemplation, and which will increase the facilities of communication within the proposed districts. The construction, by private enterprise, of a line from Bhairab Bazar in the south of the proposed Kishorganj district, through Kishorganj and Iswarganj to Mymensingh, with a branch from Gauripur to Bagmara in the north of Netrakona subdivision, and another from Shamganj to Netrakona, has been approved. This line will traverse the new district of Kishorganj from north to south ; and the headquarters of the proposed district, as well as of the two proposed subdivisions, viz., Iswarganj and Bhairab, will be directly on the line. The branch lines will link up Netrakona and the north of that subdivision with Mymensingh. On the western side of the existing district, the Railway Board have sanctioned a detailed survey, by the agency of the Eastern Bengal Railway Administration, for a metre gauge line of railway from Mymensingh to Tangail, with an extension to Porabari or Elashin ; orders have also been issued for a reconnaissance survey of the area between the Jagannathganj-Mymensingh-Dacca Railway and the Brahmaputra river with a view to framing proposals for railway construction. This area includes a large part of the proposed Gopalpur district.

8. This review of the case is published with the object of enabling public associations and private persons interested in the scheme to formulate such criticism as will lead to the best possible solution of the problem, and His Excellency in Council will be glad to consider any expressions of opinion which may be communicated to him. All suggestions should be submitted within three months of the publication of this Resolution.

ORDER :—Ordered that this Resolution be published in the *Calcutta Gazette* and that it be forwarded to the Commissioner of the Dacca Division with the request that copies, both in English and in the vernacular, may be widely circulated within the Mymensingh district.

By order of the Governor in Council,

Offg. Chief Secy to the Govt. of Bengal.

RESOLUTION.

READ—

Letter No. 14085, dated the 30th March 1915, from the Vice-Chairman, Port Commissioners, Calcutta, submitting the Budget Estimate of income and expenditure of the Port Trust for the year 1915-16.

CAPITAL ACCOUNT.

A PROVISION of Rs. 1,09,00,000 has been made by the Commissioners for expenditure on Capital account during the year 1915-16. This is practically limited to major works in connection with the Dock Extension Scheme. The charges will be met from—

		Rs.

Estimated receipts from the debenture loan of 85 lakhs proposed to be raised during the year.		86,60,000
Total	...	1,09,60,000

The Port Facilities Enquiry Committee recommended the raising by the Commissioners of a loan of Rs. 2 crores—one crore during 1914-15 and the other crore during 1915-16—to meet the cost of the Capital works in connection with the Dock Extension Scheme. A loan of one crore, with the approval of the Government of India, was raised during 1914-15. The Commissioners now propose to raise a loan of Rs. 85 lakhs instead of one crore during 1915-16, and have provided for the necessary interest and sinking fund in the Budget under review. The Government of India is being addressed on the subject. A sum of Rs. 84,91,842 has been provided for expenditure on works in progress, Rs. 27,17,965 for new works, and the balance (Rs. 50,000) for unforeseen works. Provision has been made in the Budget for the following new works estimated to cost a lakh of rupees or more :—

				Rs.
Dock Extension Scheme—				
New dock extension	...	...	...	12,00,000
Town Delivery Depôt—				
Land acquisition at Beliaghata		...	...	10,00,000
Railway—				
Subway under Howrah Bridge approach			...	1,87,285

REVENUE ACCOUNT.

2. *Receipts.*—The total revenue of the Trust has been estimated at Rs. 1,64,61,137, which includes a sum of Rs. 30,00,000 as estimated receipts from the war surtax, which has been imposed temporarily as an emergent measure of taxation to meet the loss of revenue of the port, due to decrease of traffic consequent upon the outbreak of war. The sources of revenue which have not been affected by the war are the "Petroleum Wharf," "Rentable Lands and Buildings," and "Ferry Service." The prospects of revenue under the "Sale Tea Warehouse" would appear to be good owing to the demand from Russian customers

The Commissioners do not anticipate any immediate revival of trade even if the war comes to an end at an early date.

3. *Expenditure.*—The *ordinary* revenue expenditure of the Trust has been estimated at Rs. 89,62,549 as against Rs. 94,89,546, the estimate for last year. The Commissioners have carefully examined the main heads of expenditure, viz., "Establishment" "Maintenance and Repairs," "Labour and Stores," and reductions have been effected as far as practicable under each of these heads. The payment on account of interest and sinking fund charges has been estimated at Rs. 66,67,723 as against last year's estimate of Rs. 63,11,244. The total estimated expenditure of the Trust during the year under review amounts to Rs. 1,56,30,272 as compared with Rs. 1,58,00,790, the estimate for 1914-15. The year 1915-16 is expected to close with a surplus of Rs. 8,30,865 under Revenue account.

The Commissioners have not taken into account the reduction of expenditure of about Rs. 2 lakhs which is expected to result from the acceptance of their proposal, which was supported by the Port Facilities Enquiry Committee, to charge during progress of construction the interest on the capital expended to Capital account This proposal has been submitted to the Government of India for sanction.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 31st May 1915.

Summary.—During the week under report heavy rain fell only in Mymensingh, but the fall was light to moderate in the rest of the province. Ploughing of fields for winter rice is in progress. The sowing of autumn crops has almost been finished. The weeding of *aus* paddy and jute is being hampered in places by excessive rain. The standing crops in Mymensingh and in some of the Northern Bengal districts have somewhat suffered for the same reason; elsewhere the prospects are good. Cattle-disease is reported from eleven districts. The average price of common rice for the province has risen by about 0·5 per cent. as compared with that of the previous week.

NOTIFICATIONS.

No. 1387T.-Medl.—The 7th June 1915.—In exercise of the powers conferred by clause (*ii*) of section 69B of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and clause (*k*) of section 138 of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), and in supersession of the Notification No. 2497Medl., dated the 31st December 1908, and of the rules published therewith, as subsequently amended, the Governor in Council is pleased to make the following rules for the establishment and management under the said Acts of hospitals and dispensaries under the supervision of the Government of Bengal.

II. The Governor in Council is also pleased to direct that these rules shall also apply to State, Private and Railway Hospitals and Dispensaries under the supervision of the Government of Bengal.

RULES FOR THE MANAGEMENT OF HOSPITALS AND DISPENSARIES UNDER THE SUPERVISION OF THE GOVERNMENT OF BENGAL.

PRELIMINARY.

IN these rules—

"Local authority" and "Local Fund" defined.

(*a*) "Local authority" means any body of persons for the time being invested by law with the control and administration of any matters within a specified local area. It includes a Joint Committee under section 30 and a Local Board under section 101 of Bengal Act III of 1885.

(*b*) "Local Fund" means any fund under the control or management of a local authority.

CLASSIFICATION.

RULE I.—Hospitals and dispensaries under Government supervision are divided into the following classes :—

Classification of hospitals and dispensaries

Class I. *State.—Public hospitals and dispensaries.*	These include all institutions maintained by Provincial Funds and under Government management. (The fact that an institution possesses endowments or receives contributions from local fund or private subscriptions should not be regarded as a reason for not classing it as "State," so long as Provincial and Imperial Funds are ultimately responsible for all the charges connected with it).
Class II. *State.—Special hospitals and dispensaries.*	
(*i*) Police.	
(*ii*) Forest and Surveys.	
(*iii*) Canals.	
(*iv*) Others.	
	Class I.—"Public" are State dispensaries which are open to the poorer classes of the public.
	Class II.—"Special" are State dispensaries which serve only a special section of the public, as indicated in the sub-classification attached.

Class III—*Local Fund Hospitals and Dispensaries*—includes all institutions which are vested in local authorities, or guaranteed or maintained by local funds. The fact that such an institution is aided by private subscriptions or receives assistance from Government in the shape of part of the salary of the Medical Officer, grants of medicine or otherwise, should not be regarded as a reason for not classing it as a Local Fund Dispensary so long as its existence is ultimately dependent upon local funds.

Class IV—*Private aided Hospitals and Dispensaries*—comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V—*Private non-aided Hospitals and Dispensaries*—comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers

and forms should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—*Railway Hospitals and Dispensaries*—comprises all railway institutions, whether maintained by State Railways or others.

OPENING AND CLOSING OF DISPENSARIES AND CONDITIONS UNDER WHICH GOVERNMENT AID AND SUPERVISION WILL BE GIVEN.

Opening and closing of dispensaries

RULE 2.—A dispensary may be opened by a local authority with the sanction, general or special, of the Commissioner, and on provision of the necessary funds in the annual budget, and it may be closed by the same authority, with the same sanction. When thus opened or closed by a local authority, the fact shall be reported by the Civil Surgeon to the Surgeon-General, in order that the dispensary may be added to or struck off from the list in class III. No dispensary in class III in which a Government medical subordinate is employed shall, however, be closed without the sanction of Government, and, in the case of a dispensary in class IV or V, three months' notice shall be given to the District Magistrate and the Civil Surgeon before the dispensary is closed. All dispensaries maintained by local authorities with public funds entrusted to them by Government are subject to all the rules hereby laid down for the management of such institutions. Whenever a dispensary under class IV or class V is opened or closed by a private individual, the fact shall be reported by the Civil Surgeon to the Surgeon-General.

(i) Institutions in class IV, which are in receipt of aid from Government or local funds, shall be subject to these rules. Private non-aided dispensaries shall not be brought under the supervision of Government except at the request of those who are responsible for their maintenance. When the Surgeon-General approves of their being brought under Government supervision, they shall be placed in class V and be subject to such of these rules as are applicable to them.

(ii) Whenever a new dispensary is opened, whether it is a State or Local Fund Dispensary, or when a private dispensary is proposed to be placed under Government supervision, the Civil Surgeon of the district should furnish the Surgeon-General with information on the following points:—

(*a*) Allotment made under the different heads of expenditure for the maintenance of the dispensary.
(*b*) A copy of the Divisional Commissioner's order sanctioning the establishment of the dispensary, unless it is a private one.
(*c*) A plan of the building in which the dispensary is or will be located.
(*d*) A list of the proposed equipment of the dispensary.
(*e*) The authority mainly responsible for its maintenance and the class in which it is proposed to place it.
(*f*) The diploma and other certificates of the Medical Officer whom it is proposed to appoint as laid down in rule 10.

(iii) No dispensary should be removed from one place to another until the matter has been fully discussed and the Surgeon-General informed in sufficient time to enable him to express an opinion and to sanction or reject the proposal.

Grants-in-aid by Government and local authorities.

RULE 3.—Applications for grants from Government in respect of any dispensary shall be submitted to Government through the Magistrate and the Commissioner.

(i) The Governor in Council reserves the right to withdraw Government supervision or aid in any case, or at any time, when it may seem desirable to do so.

(ii) No grant may be made by a local authority in aid of any hospital or dispensary which has not received the recognition of Government and been classified under these rules. Grants-in-aid shall be made only in accordance with these rules.

Guarantee bond.

RULE 4.—A guarantee bond for the maintenance of a dispensary for a given period may, if thought necessary, be required from the intending supporters of an institution in class IV or V as a condition precedent to their obtaining assistance from Government in money or in any other way.

Submission of reports, returns and accounts

RULE 5.—The Managing Committee or Manager or person or persons vested with the management of every hospital or dispensary under these rules, whether in class I, class II, class III, class IV, class V or class VI, shall submit to the Medical Department, through the Civil Surgeon of the district, such reports, returns and accounts as may be prescribed by the Surgeon-General from time to time. Such reports, returns and accounts shall be in such forms, and be submitted on such dates, as may be prescribed. All books, registers, and forms which may be necessary for the preparation and submission of such reports, returns and accounts will be supplied by Government free of cost.

Inspection and supervision

RULE 6.—Every institution which is recognized by Government and brought under these rules is subject to inspection and supervision by the Commissioner of the Division by the civil authorities of the district, by the Civil Surgeon, by the administrative officers of the Medical Department, and by any other person who may be generally or specially appointed by the Commissioner of the Division in that behalf. No charge will be made for such inspection or supervision.

Conditions for grant-in-aid

RULE 7.—Government aid to a hospital or dispensary will be conditional on the observance of due economy in the management of the dispensary funds. The Surgeon-General will bring to the notice of Government any instance in which he considers that such economy is not observed, and that the Government aid should be continued or withdrawn.

Admission of police cases, and *post mortems*

RULE 8.—Every dispensary under Government supervision which has accommodation for in-patients shall admit all cases brought by the police for examination and treatment.

APPOINTMENT, PAY, LEAVE AND PENSION OF MEDICAL OFFICERS.

Appointment of Medical Officer in State institutions

RULE 9.—The Medical Officer of every institution in class I or II of these rules shall be a member of the Government service, and shall be appointed by the Surgeon-General.

Appointment of Medical Officer in other cases

RULE 10.—The local authority or Managing Committee vested with the control and administration of an institution in class III, and the Managing Committee, Manager or person or persons vested with the management of an institution in class IV, V or VI (private) shall be entitled to appoint their own Medical Officer subject to the following conditions, viz.—

(*a*) that he is a registered medical practitioner unless the special permission of Government is obtained to the appointment of an unregistered practitioner;

(*b*) that he be not a dismissed servant of Government or disqualified for his duties by age, infirmity or character; and

(*c*) that in the event of misconduct, insolvency, or professional incompetence by reason of age or otherwise being proved against him to the satisfaction of the Medical Department, he be removed from his charge on the requisition of the Surgeon-General:

(i) Provided that, on the application of the local authority or Managing Committee of any such institution, the services of a Government Medical Officer may be lent to such institution, subject to these rules. In such cases the pay *plus* contribution towards pension and allowance for leave, including privilege leave of an Assistant Surgeon, will be assumed to be Rs. 280 per mensem, and the pay, including contribution for privilege leave allowance of a Sub-Assistant Surgeon, Rs. 52, and local authorities will be required to pay these sums into the treasury half-yearly in June and December, irrespective of the actual pay of the officer appointed.

NOTE.—In the case of dispensaries to which Medical Officers were lent before the 1st August 1918 the sums payable are Rs 290 for an Assistant Surgeon and Rs 57 for a Sub-Assistant Surgeon

(ii) Provided, also, that in the case of dispensaries situated at the headquarters of districts or of subdivisions, the Medical Officer shall be a member of the Government service, and shall, in all cases, possess such qualifications as may be declared to be necessary for such an appointment. The salary of

a Medical Officer in charge of a dispensary at the headquarters of a subdivision shall be as laid down in rules 11 and 13.

NOTE.—This rule does not preclude the local authority or the Managing Committee or Manager which appoints a Medical Officer to the charge of a dispensary vested in it from removing that officer with the approval of the Superintendent. It only vests the Surgeon-General with power to secure the dismissal of a Medical Officer found to be incompetent

Remuneration of Assistant Surgeons and Sub-Assistant Surgeons

RULE 11.—In the case of a hospital or dispensary situated at the headquarters of a subdivision, the Government Medical Officer in charge of the subdivision will usually be in charge of the hospital or dispensary in addition to his other duties, and will receive from the Managers of the dispensary an additional allowance of Rs. 10 a month if he is a Sub-Assistant Surgeon, or Rs. 20 a month if he is an Assistant Surgeon.

(i) If the officer sanctioned by Government for the medical charge of the subdivision is of the Sub-Assistant Surgeon class, it will be open to the Managers to obtain the services of a Civil Assistant Surgeon on payment of the difference between the assumed pay of an Assistant Surgeon (Rs. 280) and the assumed pay of a Sub-Assistant Surgeon (Rs. 52) in addition to the dispensary allowance.

NOTE.—In the case of dispensaries which obtained the concession prior to the 1st August 1913, the difference is reckoned on an assumed pay of Rs. 290 for an Assistant Surgeon and Rs 57 for a Sub-Assistant Surgeon.

RULE 11 A.—In some subdivisions and sadar stations there are two Medical Officers—one an Assistant Surgeon and the other a Sub-Assistant Surgeon. In the absence, other than merely temporary, of one of such officers, if the absentee's work is carried out by the remaining officer in addition to his own duties, the latter will be granted an allowance at the rate of Rs. 10 a month in the case of a Sub-Assistant Surgeon, and Rs. 20 a month if a Civil Assistant Surgeon; such allowance being paid by the authority (Government or local body) responsible for the pay of the absentee.

Removal or transfer of Government medical subordinate.

RULE 12.—The Surgeon-General may, at any time, for departmental or other reasons, remove or transfer any Government medical subordinate whose services have been lent to an institution in class III, IV, V or VI (private) and may appoint another medical subordinate to succeed him. In every such case, except as hereinafter provided, the transit pay and travelling allowances both of the officer transferred and of his successor shall be entirely paid by Government:

Provided that if any officer is removed or transferred at the request of the local authority or Managing Committee or Manager, the transit pay and travelling allowances both of the officer transferred and of his successor shall be entirely paid by the local authority or Managing Committee or Manager concerned. In such cases the local authority or Managing Committee or Manager of institutions in classes III, IV, V and VI (private) shall be required to give three months' previous notice of their intention.

NOTE.—The transit pay and travelling allowance of a Government Medical Officer whose services are withdrawn from a Local Fund Dispensary at the request of the local authorities or the Managing Committee or Manager will, in the first instance, be drawn from the local Government treasury and will subsequently be recovered by the Accountant-General, Bengal, through the Collector of the district.

Pay of Government medical subordinate lent to be grade pay

RULE 13.—The pay to which a Government medical subordinate in medical charge of any dispensary is entitled is only the pay of his grade, and no allowance in addition to his authorized pay can be granted by a local authority without the consent of Government.

NOTE.—Any application under this rule must be made through the District Magistrate, the Commissioner of the Division, and the Surgeon-General with the Government of Bengal.

Pension and leave allowances of Government medical subordinates.

RULE 14.—A Government medical subordinate appointed to the charge of a hospital or dispensary under these rules will retain his right to pension and leave allowances under the rules of the Civil Service Regulations.

Applications for leave and payment of allowance

RULE 15.—All applications for leave from Government medical subordinates must be submitted through the Managing Committee or Manager and the Civil Surgeon to the Surgeon-General, who alone is authorized to grant the leave and to appoint a substitute, whose transit pay and travelling allowance will be paid by Government. The leave pay of Government Medical Officers in charge of hospitals or dispensaries in classes III, IV, V and VI (private) proceeding on leave, including privilege leave, will be borne by Government.

RULE 16.—Medical Officers in charge of hospitals and dispensaries in class III, IV or V, who are not in Government service, shall be entitled to such leave as the local authority or Managing Committee or Manager may grant: provided that the leave or allowances during leave shall not exceed what would be admissible under the rules which apply to an officer paid from general revenues, and that in the case of an institution in class III, if rules for the grant of leave have been framed by the local authority concerned, leave shall only be granted in accordance with such rules. Such Manager shall exercise in respect of the hospital or dispensary for which he is appointed the powers exercised by a Managing Committee under these rules, or such powers, additional or otherwise, as may be delegated to him by the local authority.

(*c*) Classes IV and V—In a Manager or Managing Committee to be nominated by the proprietors or supporters and approved by the Commissioner of the Division: provided that no Committee shall be appointed for any institution which receives no aid from Government or local funds, unless the proprietors or chief supporters apply for such appointment.

One-third of the total number of members shall be necessary to form a quorum at any meeting. The Managing Committee shall examine and pass the monthly accounts and shall keep a minute book in which their proceedings shall be recorded. The dispensary accounts shall, however, be passed regularly each month by the Chairman of the Managing Committee or, in his absence, by the Vice-Chairman or Secretary.

Duties and functions of Committee

RULE 26.—The Managing Committee or Manager or the person or persons vested with the management of a dispensary in class IV or V shall be responsible for the management of the funds of the institution. It shall be their duty to see that the guaranteed and promised subscriptions are regularly collected. After defraying the current expenses of the institution, the balance at the end of the month, if any, of the donations, subscriptions,

and interest realized by the Committee shall be deposited by them in the Post Office Savings Bank. When the amount at credit of the dispensary exceeds Rs. 200 the Comptroller-General shall ordinarily be asked to invest the whole or part of it in Government securities. No other mode of investment will be allowed without the previous sanction of Government. The proprietors of dispensaries in class V may, however, adopt any form of investment so far as the funds of their institution are concerned.

Custody of endowments and invested funds

RULE 27.—In the case of institutions in class III, the endowments and subsequent investments, which must be made in Government securities, shall be held in the custody of the Accountant-General apart from the assets of the Local Fund. Small sums available for investment should be placed in the Government Savings Bank. The securities must not be sold, and the invested funds must not be appropriated or used in any way without the sanction of Government.

Subdivision for purposes of accounts of Local Funds Dispensaries.

RULE 28.—Dispensaries in class III are subdivided for purposes of account into two classes: Class III-A—Dispensaries for which separate banking accounts are allowed to be opened in the treasury with the sanction of Government; and Class III-B—Dispensaries for which separate accounts are not allowed at the treasury, but the funds of which are kept under the direct control of the local authority.

(*a*) CLASS III A—DISPENSARIES.

Preparation of dispensary budgets.

(1) (*a*) The Managing Committee shall annually prepare a budget estimate of the probable income and expenditure of the dispensary for the ensuing financial year arranged according to the headings given in Statement H of the Annual Return (B. C. M. D. Form No. 22), and submit it for approval to the local authority on a date fixed by that authority.

(*b*) No expenditure under any head in excess of the amount sanctioned in the budget estimates shall be incurred by the Dispensary Committee. If it is found necessary to meet excess expenditure under any one head either from anticipated savings under another, or from increased receipts from subscriptions or other special sources, or from the accumulated balance, an application for reappropriation or an additional budget grant, as the case may be, with a clear explanation of the necessity for additional expenditure, shall be submitted to the local authority, but the expenditure proposed shall not be incurred before receipt of their orders.

Method of keeping accounts where separate banking account is opened in treasury.

(2) All subscriptions and donations shall be collected by the Managing Committee and shall be paid into the treasury for credit to the Dispensary Fund. The income from endowments and investments shall, however, be realized by the local authority, and shall be remitted by it to the treasury for credit to the Dispensary Fund, an advice being sent at the same time to the Managing Committee. If any cheques for remittance orders are received, they shall be sent intact to the treasury for *per contra* credit to the Dispensary Fund.

(3) All claims shall be discharged either by payments from the imprest placed by the Committee in the hands of the Medical Officers in charge, or by cheques drawn by the Secretary or the Chairman upon the treasury in favour of the actual payees. The imprest in the hands of the Medical Officer shall not ordinarily exceed Rs. 50 in the case of sadar dispensaries, and Rs. 25 in the case of other dispensaries.

If it is necessary for the local authority to make a contribution to supplement the dispensary funds, such contribution shall be paid in quarterly instalments on the first day of each quarter by cheques which should be made payable by transfer to the credit of the dispensary account in the treasury, intimation at the same time being sent to the Secretary or Chairman of the Committee. These amounts will be credited in the cash-book of the Managing Committee as contribution from the local authority by *per contra* debit as remitted to the treasury. The entry in the cash-book shall however not be made until the treasury chalan is received.

(4) The Managing Committee shall keep a cash-book in B. C. M. D. Form No. 7 in which shall be entered all receipts and payments with necessary details as soon as the transactions occur. The cheque on which the imprest in the hands of the Medical Officer is drawn shall be charged off as an advance, and the imprest shall be recouped from time to time by presentations of bills supported by the payees' receipts to the Secretary. The amount

of each recoupment shall always exceed Rs. 10. The cash-book shall be closed every month, and a memorandum recorded reconciling the balance with that shown in the pass-book. Care must be taken not to mix up final payments with advances which should be clearly shown as such. The payment vouchers must be carefully preserved for production at the time of audit.

The transactions of the Dispensary Fund with the treasury will be shown in a pass-book, which will be supplied gratis by the treasury. The pass-book shall be closed and balanced at the end of every month. It shall be examined by the Secretary of the Committee every time that it is received back from the treasury, to see that all the transactions have been duly entered therein. At the close of every month the treasury officer will prepare a memorandum showing the opening balances, monthly receipts and payments and the closing balances of the several dispensary funds banking with the treasury, and enter this memorandum in the pass-books of the local authority to which the dispensaries belong to enable it to verify the balances.

(5) Dispensary establishments paid from funds vested in the local authority should be sanctioned in the same way as other establishments under that authority, but temporary appointments or other special charges, if paid out of subscriptions and donations, may be created by the Managing Committee without such sanction, provided there is provision in the budget.

(6) The dispensary accounts will be annually audited by the Examiner of Local Accounts.

(*b*) CLASS III-B—DISPENSARIES.

Preparation of dispensary budget.

(1) The Managing Committee shall annually prepare a budget estimate of the probable income and expenditure of the dispensary for the ensuing financial year arranged according to the headings given in annual Statement H (B. C. M. D. Form No. 22) and submit it to the local authority on a date fixed by that authority. No expenditure shall be incurred in excess of the amounts sanctioned, unless previous sanction has been obtained to either a reappropriation of grants or an additional grant obtained from the local authority.

Method of keeping accounts where funds are under direct control of local authority.

(2) As regards these dispensaries the interest on the investments will be accounted for by the local authority direct. But all donations and subscriptions will be collected by the Managing Committee and paid into the Savings Bank at the Post Office. The account shall be in the name of the Chairman or Secretary of the Committee. The whole amount collected shall be sent intact to the Savings Bank. Amounts required for expenditure may be withdrawn according to requirements, but there shall be in support of each payment a duly vouched bill passed by either the Chairman or Secretary, and the total expenditure under any head in the budget shall not be exceeded without the sanction of the local authority. The Dispensary Committee shall maintain a subscription register in B. C. M. D. Form No. 6, in which the initials or signature of the donor must be taken. The collections of the month shall be totalled from this register or the Savings Bank Pass-Book and the total entered on the receipt side of the cash-book (B. C. M. D. Form No. 8). Interest allowed by the Post Office shall be shown against "Miscellaneous."

(3) All claims in respect of these institutions shall be either paid from the imprest in the hands of the Medical Officer in charge or from the money withdrawn according to requirements from the Savings Bank or discharged by the local authority concerned on bills duly passed by the Managing Committee by issue of cheques upon the treasury. The Medical Officer shall from time to time present bills in recoupment of his imprest supported by payees receipts. Payments met by withdrawal from the Savings Bank or by cheque from the parent local body shall be entered on the payment side of the cash-book (B. C. M. D. Form No. 8), in the appropriate column.

Payments met out of the imprest shall be recorded in an Imprest Register (B. C. M. D. Form No. 60). Charges to be ultimately recouped by the local body shall be entered in the appropriate column under the heading "Payable by Local Body," and charges to be recouped by withdrawal from Savings Bank shall be entered in the appropriate column under the heading "Payable from Savings Bank." Whenever the imprest runs low and always at the end of the month, two recoupment bills will be

prepared—one for payment by the local body and one for withdrawal from the Savings Bank. The sub-vouchers appertaining to the former shall be submitted with the bill to the local body. The totals under each column of the Imprest Register will be entered in the corresponding column of the cash-book when the recoupment bills are cashed.

(4) The Managing Committee shall, by the 4th of each month, submit a copy of the cash-book for the previous month, with all vouchers, to the local body for verification and incorporation in their accounts.

(5) The amount of monthly subscriptions guaranteed by the local people when starting the dispensary shall be paid to the local body every month. The payment shall be entered in column 16 of the payment side of the cash-book and shall also be entered on the receipt side against the head "Guaranteed subscription paid to local body," a corresponding deduction being made under the head "Receipts."

II. The draft will be taken into consideration on or after the 22nd July 1915 and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

Draft Rules.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations notified in the Schedule II attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class I, whether laden or empty shall, for the purposes of these rules, be determined by the following measurements :—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches ; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows :—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class 1, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll-station of entry with a ticket on which the name of the serang

manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain a permit for so doing in Form No. 1 from the Toll Collector of the toll-station of entry. In such cases the Toll Collector will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the Collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. (I) In the case of steamers and flats falling under the latter portion of rule 9 a copy of the traffic manifest must be handed in at the exit toll-station, a receipt for which in Form No. 2 will be issued by the Toll Collector to the person in charge of the vessel, in such cases no ticket in the usual form will be issued. If the trffic manifest is not produced at the exit toll-station the procedure as laid down in rules 6 and 8 will be adopted

(II) The traffic manifest or the receipt for the same may be demanded by any navigation officer while the vessel is within the limits of the Bhil channels between the Manickdah entrance and Chur Maguria.

11. The term "Navigation officer" as used in rule 6 shall include the Collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer of the Public Works Department in charge of the subdivision or section within which the channel is situated.

12. Duplicates of lost tickets will be granted by the Toll Collector who originally issued the ticket on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and a minimum of four annas. The duplicate will be issued only when the Toll Collector is satisfied concerning the identity of the boat.

13. No person shall wilfully or negligently allow a vessel to sink in the channel.

14. (1) In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(2) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take action at once to remove the same.

15. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay to the Collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

16. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the Collector of tolls, without payment of tolls.

17. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

18. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta and local newspaper.

19. *Lights and Signals.*—All vessels, whether travelling or moored in the channel, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule.

20. Every vessel proceeding in the channel must limit her speed to six miles an hour from the 15th October to the 10th July, and to eight miles an hour from the 11th July to the 14th October.

21. For any infringement of rule 6, 7, 8, 9, 10, 13, 14, 15, 17, 19 or 20 the person in charge of the vessel or other persons in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

RESOLUTION—By the Government of India, Department of Education (Municipalities).

Local Self-Government Policy of the Government of India.

Historical retrospect

LOCAL SELF-GOVERNMENT as a conscious process of administrative devolution and political education dates, outside presidency towns, from the financial reforms of Lord Mayo's Government. Consultative committees had indeed been appointed in various towns in 1850, and measures were taken in 1864 and following years to give effect to the recommendations of the report of the Royal Army Sanitary Commission, which was published in 1863, but no comprehensive scheme was introduced until the years following 1870. Legislation affecting several provinces was then undertaken. Lord Ripon's Government in 1882 carried still further the principles of local self-government with the object, by measures cautiously but substantially progressive, of inducing the people themselves to undertake, as far as might be and subject to necessary control from without, the management of their own local affairs, and of developing and creating, if need be, a capacity for self-help in respect of all matters that had not, for administrative reasons, to be retained in the hands of a representative of Government. Various Acts were passed by which the elective principle, financial independence and the reduction of official control were given a wide extension. In two Resolutions Nos. $\frac{1}{146\text{-}184}$, dated the 24th October 1896, and Nos. 18—37, dated the 20th August 1897, respectively, Lord Elgin's Government again reviewed the subject and laid down further conditions of progress. Important principles have, from time to time, been considered by the Government of India in connection with the revision of Local Self-Government Acts and otherwise, and recently the whole field of policy has, in their survey of Indian administration, been ably and exhaustively reviewed by the Royal Commission upon Decentralization.

Substantial progress

2. The Governor-General in Council is glad to be assured by the report of the Commission and the opinions of local Governments and Administrations upon it that the results have on the whole justified the policy out of which local self-government arose. The degree of success varies from province to province and from one part of a province to another, but there is definite and satisfactory evidence of the growth of a feeling of good citizenship, particularly in the towns. The spread of education is largely responsible for the quickening of a sense of responsibility and improvements in the machinery. In certain provinces beneficial results have followed the elaboration of a system of local audit. On all sides there are signs of vitality and growth.

Future general policy.

3. The obstacles in the way of realising completely the ideals which have prompted action in the past are still, however, by no means inconsiderable. The smallness and inelasticity of local revenues, the difficulty of devising further forms of taxation, the indifference still prevailing in many places towards all forms of public life, the continued unwillingness of many Indian gentlemen to submit to the troubles, expense and inconveniences of election, the unfitness of some of those whom these obstacles do not deter, the prevalence of sectarian animosities the varying character of the municipal area, all these are causes which cannot but impede the free and full development of local self-government. The growing demand among the

educated classes in towns for greater efficiency, involving more direct expert control, in matters affecting public health and education, is a further influence of a different character. A similar tendency, it may be observed, is discernible in England and in other European countries, the Governments of which have shown a growing disposition to place on central authorities the duty of stimulating and encouraging local bodies in cases of default or deficiency on their part, and to give to the former powers of intervention and, in case of need, of actual supersession of the latter. These and similar considerations indicate the need for caution in delegating powers to non-official bodies, when they are not as yet adapted nor prepared for them But, on the whole, the Government of India declare unhesitatingly in favour of a general policy of further progress, limited only by such conditions as local circumstances may dictate. Uniformity, even were it attainable, would be undesirable as tending to monotony, lifelessness and discouragement of new experiments. But, in fact, any attempt to exact uniformity in local administration would be foredoomed to failure. In each province, sometimes in each part of a province, the administrative system has grown up on lines of its own with reference to local needs and the wishes and abilities of the people. On a review of all the circumstances, the Government of India have decided to accept in almost every case the conclusion of the local Government or Administration as to the degree of progress possible at the present time. But in the more backward provinces in particular, it is their conviction that there is room for advance, and that the aim to be steadily pursued is abstention from interference in detail and increased reliance on the non-official element in local bodies.

Reforms accepted by local Governments

4. Local Governments and Administrations in general are prepared to advance in the direction of the main recommendations of the Commission. They propose in varying degrees to expand the electoral element in the constitution of local bodies, to extend the employment of non-official chairmen in municipalities, to allow local bodies more ample control over budgets and freer powers of reappropriation, to concede increased authority to local bodies over establishments, and to relax existing restrictions in regard to outside sanction for expenditure on works of importance. These changes will mark a real and immediate extension of the principles of local self-government.

5. The Government of India now propose to state the principal conclusions that have been reached after full discussion in the public press, in debates of the Legislative Councils, and in consultation with local Governments and, in certain matters, with His Majesty's Secretary of State, on the questions that arise respecting (1) towns, (2) districts, (3) villages or other small local areas; in other words, in relation to (1 municipal boards, (2) district and sub-district boards, and (3) panchayats or other unions. In each case they will consider the constitution of the local body, its ability to tax and its powers in regard to its budget and its establishment. Finally, they will deal with the recommendations of the Commission in connection with presidency towns and Rangoon.

MUNICIPAL BOARDS.

Elective majority

6. The Commission recommended that municipal boards should ordinarily be constituted on the basis of a substantial elective majority, and that nominated members should be limited to a number sufficient to provide for the due representation of minorities and official experience. This recommendation has already been adopted in several provinces and is generally accepted by local Governments and the Government of India, subject to the proviso that the principle should in places, where its success is doubtful, be introduced gradually and after experiment in selected municipalities.

Chairmen

7. The Commission also proposed that the municipal chairman should usually be an elected non-official, that Government officers should not be allowed to stand for election, and that where a nominated chairman might still be required he

should be an official. The following statistics show how in the different provinces chairmen of municipalities are at present secured :—

Number of chairmen of municipalities, elected and nominated, officials and non-officials.

Non-official chairmen

8. The majority of local Governments are in favour of substituting, so far as possible, non-official for official chairmen, and the Government of India are in full sympathy with the proposal. The increasing burden of administration, apart from other considerations, renders it desirable that the district officer should be relieved of the executive control of municipal bodies. The Governor-General in Council recognises, however, that the change must be made gradually, and that in the absence of suitable candidates, it may not be possible to make it finally and once for all in particular places. He agrees with the opinion expressed in several quarters that discretion should be reserved to a local Government to nominate a non-official as chairman. Many gentlemen of influence, well fitted to be chairmen of boards, are not prepared to offer themselves for election, and insistence on election as the only alternative to the nomination of an official would unnecessarily narrow the field of choice. Nor does it appear necessary to prohibit boards under any circumstances from electing an official as their chairman. It may be desirable, however, to require the election of an official as chairman to be confirmed by the Commissioner or even higher authority.

The Bombay system in larger municipalities

9. The Commission suggested that some of the largest cities should adopt the system in force in Bombay city, where there is an elected chairman, who is the official mouthpiece of the corporation as a whole, the executive administration, however, vesting in a full-time nominated official subject to the control of the corporation and of a standing committee thereof. In the Bombay District Municipal Act, 1901, also there are provisions under which a Chief Officer can be appointed by a city municipality, on its own initiative or at the instance of the Governor in Council. The Governor in

Council may also appoint an executive officer known as the Municipal Commissioner for any municipal district which contains one hundred thousand inhabitants, or for any other municipal district on the application of the municipality, provided that such application has been previously supported by not less than two-thirds of the whole body of councillors. A Municipal Commissioner has in some respects more extensive powers than a Chief Officer. Under this arrangement the direction of the general policy of a municipality vests in the whole body of councillors, while the executive power, with certain reservations, vests in the Municipal Commissioner. The municipal committee may cause him to furnish any returns and reports on matters appertaining to municipal administration and they retain financial control. The Chief Officer or Municipal Commissioner is not removeable, except by order of the Governor in Council, or by the vote of three-fourths of the whole number of councillors. These officers exercise certain executive powers specifically conferred on them by the Municipal Act, and such other powers as may be delegated to them under the provisions of the Act; and the Governor in Council may require that they shall be invested with any powers which can be lawfully delegated. The system works well in Bombay. The Government of India do not desire to press for its adoption in provinces where it may not be suited to the local conditions. They are, however, of opinion that it has the advantages of ensuring a continuous and strong executive administration by an efficient paid staff, while maintaining the corporate control and activity of the municipal board. It is in fact not dissimilar to the system in force in England. They commend it to local Governments as a means of overcoming, at any rate in large cities, the difficulties inherent in the introduction of the important changes contemplated, especially when non-official chairmen are busy professional men. In smaller towns they suggest that the object aimed at might be attained by the wider delegation of executive functions to responsible secretaries, engineers and health officers, and that power to enforce such delegation might be secured by legislation.

Financial resources

10. The aggregate income of 701 municipalities in existence at the close of 1912-1913 (excluding the presidency towns and Rangoon) amounted to £3,282,845 (Rs. 4,92,42,675) apart from loans, sales of securities and other extraordinary receipts, or an average of about £4,683 (Rs. 70,245) a year. Taxation.

11. The taxes, tolls and fees which may ordinarily be levied by municipalities are provided for in the municipal enactments in force in the different provinces. They are imposed in most cases with the previous sanction of the local Government concerned and within the limits laid down in the Acts. They usually take one or other of the following forms:—

(1) Tax on arts, professions, trades, callings, offices and appointments.

(2) Tax on buildings, lands and holdings.

(3) Water, drainage, sewage, conservancy, scavenging and lighting tax.

(4) Tax on vehicles, boats, palanquins and animals kept for use or used within municipal limits.

(5) Tax on circumstances and property.

(6) Tax on private menials and domestic servants.

(7) Tax on private markets.

(8) Octroi on animals or goods or both, brought within municipal limits for consumption or use.

(9) Tolls on vehicles and animals entering municipal limits, and tolls on ferries, bridges and metalled roads.

(10) Fees on the registration of cattle sold within municipal limits and of carts and other vehicles.

The taxes provided for in the Acts vary, however, in the different provinces, and not all these taxes are actually levied in any one province. Any tax other than those specified in the Acts, which is proposed to be levied, ordinarily requires and should continue to require the sanction of the Governor-General in Council.

12. The most important taxes now in force are octroi duties, levied principally in Bombay, the United Provinces, the Punjab, the Central Provinces and the North-West Frontier Province, and the tax on houses and lands which holds the chief place in the other provinces as well as in Bombay city.

Octroi and the terminal tax.

13. The octroi system in the existing circumstances of the country has certain obvious advantages. As a tax octroi is productive and grows with the prosperity of the town. Its imposition is sanctioned by immemorial usage, and the people are habituated to the system by long custom. The tax is usually paid in small amounts and the effect of the payment is not generally felt as a burden. On the other hand, there is no doubt that it provides constant opportunities for fraud, delay and oppression owing to the necessity of entrusting large discretionary powers to a subordinate agency, that it is expensive to collect and wasteful and, finally, that in many places it constitutes a serious burden on trade in general, and in particular on through trade, notwithstanding the provision made for refunds. On the recommendation of a strong representative committee and the local Government, the Government of India have sanctioned an experiment in the United Provinces, which involves (*a*) the substitution of direct taxation for octroi in the smaller towns, and (*b*) the application to a large number of other towns in which conditions are suitable of the system of a terminal tax, or light transit dues on imports or exports, subject to no refunds. The Government of the United Provinces considers that some of the main benefits of such a system, and in particular a reduction of the high cost of collection, can only be secured if the tax is collected through the agency of the railway companies, who should be adequately remunerated for their services. The Government of India are prepared to facilitate negotiations to this end. The Government of Bombay have assented to the tentative replacement of octroi by a terminal tax in a few municipalities selected from those desirous of making the experiment. The question is under consideration or experiment in other provinces also. The Government of India, while adhering to the principle that municipal taxation should not operate, so far as can be avoided, as a transit duty on through trade, are prepared to concede that a light terminal tax with no refunds may in practice prove less burdensome to through trade than the octroi system as hitherto administered, provided that the following conditions are observed—viz., (1) that the terminal tax, wherever imposed, should be substantially lower in its rates than the octroi which it replaces, (2) that it should be limited to places where there are special grounds for applying it,

which must be adequately demonstrated, (3) that it should be regarded as facilitating the transition to a system in which direct taxation will form an increasingly important factor, and not as an elastic means of progressively increasing the resources of municipalities apart from normal development due to increase of traffic, and (4) that it should not be adjusted with the primary object of compensating municipalities for the loss of octroi.

House and land tax.

14. The house and land tax is the chief source of municipal income in Madras, Bengal, Burma, Bihar and Orissa, and Assam, and it has been imposed with some success in portions of Northern India. This tax, however, is difficult of assessment, in many places where it is the custom to own rather than to rent dwelling houses, because in such cases the house affords no indication of the financial status of the owner. Many aristocratic but impoverished families live in large buildings which are merely relics of vanished prosperity, while the rich trader often remains content with the humble dwelling in which he was born. There is, however, a growing tendency on the part of the professional and trading classes to spend a larger proportion of their incomes on securing sanitary accommodation, so that it is reasonable to anticipate that the house-tax revenue will gradually expand and will generally be contributed by those best able to pay. The technical and administrative difficulties of assessment have in places been overcome by entrusting the preparation and periodic revision of registers to outside agency.

Tax on professions and trades.

15. A tax on professions and trades yields a considerable revenue in certain provinces, *e.g.*, £17,239 (Rs. 2,58,591) in Madras, £4,697 (Rs. 70,465) in Bengal, £14,106 (Rs. 2,11,599) in the United Provinces, and £4,869 (Rs. 73,036) in the Central Provinces. It has also been imposed in some towns in Northern India. But neither it nor the tax on circumstances and property is likely to yield a large revenue, and there is always danger lest local taxation of this kind encroach on the field of Imperial taxation.

Tax on pilgrims.

16. In Benares there is a form of terminal tax, which is imposed with certain exceptions, on passengers coming to or leaving that station by rail. There is a radius of exemption beyond which the tax is levied, and it is collected by the railway companies as a surcharge on railway fares. A similar tax is also in force in Calcutta which is levied by the Calcutta Improvement Trust and is collected from passengers entering or leaving that city by rail or steamer. In Hardwar, Ajudhia and Thaneswar, there is a tax on pilgrims and other persons who enter the limits of those municipalities. The tax at Hardwar is levied on railway passengers throughout the year, while that at the other two municipalities is imposed only on the occasion of certain special fairs. In Bombay a pilgrim tax may be levied under section 59 (*b*) (*x*) of the District Municipal Act, III of 1901.

Powers of taxation.

17. The Commission were of opinion that municipalities should have full liberty to impose or alter taxation within the limits laid down by the municipal laws, but that the sanction of an outside authority to any increase in taxation should be required where the law did not prescribe a maximum rate. Subject to the general control of the Government of India over the principles to be followed, the sanction of the local Government is at present necessary to every proposal for the imposition of taxation. A maximum rate is prescribed in the Madras, Bengal, and Burma Acts, and in the Punjab, United Provinces and Central Provinces, so far as regards the tax on buildings and lands; but none is laid down in Bombay. The recommendations of the Commission do not command general assent. It is pointed out, for instance, that a municipality might reduce its taxation without due consideration to the needs of the administration and the security of loans. The Government of India, while recognizing the force of such objections, are, on the whole, in general sympathy with the Commission's recommendations. They think, however, that power to vary any tax might be reserved by such local Governments as are unable to accept in full the recommendations of the Commission, and that in the case of indebted municipalities the previous sanction of higher authority should be required to any alteration of taxation.

Subventions by Government.

18. Municipal finance has shown a marked expanse during the last decade. The total income of 701 municipalities in 1912-1913 was £3,282,845 (Rs. 4,92,42,675) as compared with £1,844,081 (Rs. 2,76,61,215) for 753 municipalities in 1902-1903.

Contributions from Government have materially assisted this expansion. Since 1911, the Government of India have made grants amounting to £3,076,466 (Rs. 4,61,47,000), of which £368,200 (Rs. 55,23,000) are recurring for urban sanitation. Municipalities have also received their share—the exact figure is not easily ascertainable—of the large educational grants made by the Government of India since 1911, amounting to about £3,987,800 (Rs. 5,98,17,000), of which £826,666 (Rs. 1,24,00,000) are recurring. Municipal boards have been relieved of all charges for the maintenance of police within municipal limits. In almost every province the recommendation that municipalities should be relieved from financial responsibility for famine relief and should receive assistance from Government in the case of severe epidemics has been already given effect to or the principle has been accepted.

There is a growing demand on every side for improvements, and it is not possible for all municipalities to finance large schemes of water-supply and drainage without substantial aid. Such aid has been freely given by the Imperial and Local Governments. The power of the Government to make grants is, however, limited, and financial assistance of this nature cannot be expected unless the rate-payers are prepared to bear a reasonable proportion of the burden. Where, however, further taxation is not possible, the Government of India trust that municipalities will bear in mind the possibility of supplementing taxation by development of municipal property, so as to ensure the best possible returns, and by maintaining the principle that special services such as the supply of water, electric lighting, etc., should, as far as possible, pay for themselves.

The Government of India have also accepted a further recommendation of the Commission, namely, that assistance may legitimately be given by Government to poorer municipalities which, without it, would be unable to carry on the normal standard of administration required from them. In such cases, the Government of India agree with the Commission that assistance can best be given, when it is given, by a general recurring grant-in-aid, which should be at the discretion of the local Government and met from its own resources.

Payment and control of services

19. The Commission proposed that if a municipal or rural board has to pay for a service it should control it, and that where it is expedient that the control should be largely in the hands of Government, the service should be a provincial one. The Government of India, while not prepared to accept the proposal in full, have approved it in a somewhat modified form. They consider that charges should be remitted in cases where a local body contributes to Government for services inherent in the duty of supervision and control by Government officers, or for services which cannot expediently be performed except by Government agency. For example, Government may properly cease to charge for clerical establishments in the offices of supervision and control, or for the collection of district cesses which it is clearly expedient to realise along with the Government revenue. On this principle they have made assignments which will relieve both municipalities and rural boards of payments amounting to £40,000 (Rs. 6,00,000) a year approximately.

Tramway cess

20. It was suggested by the Commission that municipalities should be empowered to levy a special rate for the construction or promotion of tramways. Local Governments generally are doubtful as to the value of the proposal. The Government of India will, however, be prepared to consider any practical proposal to this end which they may receive.

Budgets and financial control

21. Commenting on the minute control exercised in some provinces over municipal finance, the Commission recommended that municipalities should have a free hand with regard to their budgets; the only check required should, they thought, be the maintenance of a minimum standing balance to be prescribed by the local Government. They acknowledged that relaxed control might lead to mistakes and mismanagement, but they were of opinion that municipal bodies could attain adequate financial responsibility only by the exercise of such powers and by having to bear the consequences of their errors. Further checks would be provided by the control which local Governments would exercise over loans, and by the power which should be reserved to compel a municipality to discharge its duties in case of default. The system proposed is stated to be in force in the Bombay Presidency where, however,

no minimum balance is required by law. The Government of the United Provinces accepts the recommendations subject to the condition that Commissioners should pass and that Government should see the budgets of indebted municipalities. The Punjab Government also agrees subject to the proviso that the budget of an indebted municipality should be forwarded to the Government for information. The Government of Bengal are prepared to introduce the change experimentally in certain selected municipalities. They intend also to issue general instructions to Commissioners in this province to abstain from interference in details and to restrict their supervision to securing (1) a minimum closing balance, (2) provision for the service of loans, (3) the observance of the provisions of the Act or statutory rules and of any standing orders of Government. Other Governments concede certain relaxations of existing rules. The Government of India accept these opinions for the present, but they nevertheless regard the recommendations of the Commission as expressing a policy to be steadily kept in view and gradually realised.

Estimates for public works.

22. The Commission proposed that the existing restrictions on municipalities, which require outside sanction for works estimated to cost more than a certain amount, should be removed, but that Government should scrutinize and sanction estimates of projects to be carried out from loan funds. The majority of the local Governments are prepared to relax the existing rules in the direction of giving more freedom to municipal boards. The Government of India are in favour of extended freedom, subject, where necessary, to proper precautions against extravagant and ill-considered projects. They are content, however, to leave the precise extent of relaxation to be determined by local Governments. One important factor in this connection will be the quality of the professional agency available in the various boards. In their resolution No. 1019-A., dated the 10th November 1914, promulgating rules relating to the grant of loans to local bodies under the Local Authorities' Loans Act, 1914, the Government of India have emphasized the necessity for a proper scrutiny of projects financed with borrowed money, and they trust that the rules in question will be carefully observed.

Establishments.

23. It was recommended by the Commission that the degree of outside control over municipal establishments should be relaxed, that the appointment of municipal secretaries or other chief executive officers, of engineers and health officers, where these exist, should require the sanction of the local Government in the case of cities, and of the Commissioner elsewhere, and that the same sanction should be required for any alteration in the emoluments of these posts, and for the appointment and dismissal of the occupants. As regards other appointments, they proposed that the local Governments should lay down for municipal boards general rules in respect to such matters as leave, acting and travelling allowances, pensions or provident funds and maximum salaries, and that their sanction should be required for any deviation therefrom. Almost all local Governments have expressed their willingness to relax outside control over the appointment of the staff employed by local bodies. In Bombay the system is generally that recommended by the Commission. In some other provinces the existing rules give a free hand to municipalities, subject to outside control in the case of certain appointments. The Government of India, while considering that Government control over other posts might reasonably be relaxed, accept the view that outside sanction should be required to the appointment or dismissal of secretaries, engineers and health officers, and they have already advised local Governments to take powers, where these do not exist, to require a municipality to appoint a health officer and to veto the appointment of an unfit person. Such powers already exist in the Bombay Presidency and have recently been taken by legislation in Bengal. The Imperial and Provincial Governments have given liberal grants to selected municipalities in order to establish a trained service of health officers and sanitary inspectors, the conditions of these grants being, as in England, such as will ensure the appointment of qualified men and reasonable security of tenure.

Special outside control

24. The Commission thought that the Collector should retain certain powers, given under the existing Acts, *e.g.*, the power to suspend in certain cases the operation of municipal resolutions, and that the Commissioner should be able to require a municipality which had neglected a particular service to take such action as he may consider necessary. The local Governments generally and the Government of India are of opinion that special powers of outside control are necessary and should continue.

Town-planning and relief of congested areas.

25. The question of extending the powers of selected municipalities to enable them to relieve the pressure of population in congested areas, and to undertake schemes of orderly town-planning in order to provide for future needs, has been dealt with by the Government of India in paragraphs 43 and 44 of their Sanitary Resolution Nos. 888-908, dated the 23rd May 1914. A Town Planning Bill, combining many original features with others derived from the latest English and Continental legislation, has now been passed into law in the Bombay Presidency, and the Government of India will watch with deep interest the results of this experiment which will, they trust, pioneer a fruitful expansion of municipal activities in India.

RURAL BOARDS (DISTRICT AND SUB-DISTRICT)

Sub-district boards

26. The Commission desired that sub-district boards should be universally established and that they should be the principal agencies of rural boards administration. They noted that there was a considerable body of evidence that the sub-district boards existing in Bombay, Bengal, Punjab, Bihar and Orissa and the Central Provinces had not been efficient or successful bodies, and this they attributed largely to the circumscription of their powers and resources. They thought that these boards should have adequate funds and a large measure of independence, and that their jurisdiction should be so limited in area as to ensure local knowledge and interest on the part of the members, and be at the same time a unit well-known to the people. For this purpose they suggested the taluka or tahsil as a suitable unit. The system recommended by the Commission is in force in Madras, where, however, the territorial jurisdiction is coterminous with the revenue division. In Bombay the taluka board is universal and is the principal agency in rural board administration. In Bengal and in Bihar and Orissa the sub-district boards are merely the agents of the district boards and have restricted powers. The local Governments concerned deprecate such a reconstitution as would involve sapping the vitality of district boards, while in entire agreement with the Commission that sufficient use has not hitherto been made of these bodies. In the Central Provinces, where also sub-district boards with limited powers exist, a scheme has been introduced for enlarging their scope by entrusting them with the management of minor public works, sanitation, water-supply, etc., and placing an adequate share of the district council funds at their disposal for these purposes. In Assam the rural boards have jurisdiction over subdivisional areas, and perform the duties assigned elsewhere to district boards. The Governments of the United Provinces and the Punjab and the Chief Commissioner of the North-West Frontier Province consider the scheme unsuitable in view of local conditions. Districts in Northern India are comparatively small and form an easily controlled unit, communications are good, and moreover, under existing conditions in the provinces concerned, it would be more difficult to secure competent boards in tahsils than in districts. The Lieutenant-Governor of the United Provinces considers, moreover, that there is every prospect of a steady advance in the reality and utility of district boards by a continuous and orderly development of the existing system of delegation to tahsil or subdivisional committees. The Punjab Government favours the formation of sub-committees within a district board on a local basis. The Government of India accept the views of the several local Governments in regard to their own provinces.

Elective majority

27. District and sub-district boards, in the opinion of the Commission, should contain a large preponderance of elected members, together with a nominated element sufficient to secure the due representation of minorities and of official experience.

In the United Provinces the number of nominated members on a district board cannot exceed one-third of the elected members, while in the Central Provinces the number of such members cannot exceed one-third of the total number. The Government of Madras are prepared to raise the proportion of elected members to two-thirds and one-half of the maximum strength on district and sub-district boards, respectively. In Bombay the Governor in Council regards it as inadvisable, in present conditions, to provide for an elected majority on the boards. There is already a substantial majority of elected members both in district and sub-district boards in Bengal, and in Bihar and Orissa. In the Punjab the elective system has been applied to many districts and the local Government has expressed its readiness to extend it. The Chief Commissioner of Assam has adopted the principle of granting an elective majority. In the North-West Frontier Province the change is not yet practicable owing to factional and

tribal feeling. It will be seen that local Governments in general are in sympathy with the Commission's proposal.

Chairman

28. The Commission were of opinion that an official should remain, as he usually is at present, chairman of every district and sub-district board. They considered that the removal of the district and subdivisional officer from the presidentship of rural boards would have the effect of dissociating them from the general interests of the district in such matters as roads, education, sanitation, etc., and would divorce them from healthy contact with instructed non-official opinion. They differentiated the circumstances of rural boards from those of municipalities, in that the latter are less connected with general district administration, that they have reached a higher level of political education, and that the jurisdictional area is much smaller and more compact. All local Governments have accepted this view with which the Government of India are in agreement, though they will have no objection to non-official chairmen being retained where such exist, or appointed where a local Government or Administration desires to make the experiment.

Financial resources

29. The funds of district boards are mainly derived from a cess levied upon agricultural land over and above the land revenue, with which it is collected, and not usually exceeding one anna in the rupee (6¼ per cent.) on the annual rent value. Since 1905 this income has been specially supplemented by a Government contribution amounting to 25 per cent. of the then existing income. Besides this, special grants are frequently made to district boards by local Governments. The total number of district and sub-district boards in 1912-1913 was 199 and 536, respectively, with an aggregate income of £3,787,219 (Rs. 5,68,08,292). In the same year they received specially large grants from the sums allotted by the Imperial Government for education and sanitation. Prior to 1913 the district boards of several provinces did not receive the whole of the land cess. For example, this cess in Bengal and Bihar and Orissa was divided into two parts, viz., the road-cess and the public works cess. The district boards only enjoyed the benefits of the road-cess, while the public works cess belonged of right to the local Government, which returned, however, a portion in the shape of discretionary grants. In other Provinces, *e.g.*, the United Provinces, the Punjab and the North-West Frontier Province, considerable deductions were made by the local Governments concerned from the cess for various purposes. In 1913 the Imperial Government made assignments to the local Governments concerned to enable them to hand over the entire net proceeds of the cess to the boards. The relief thus given amounted to £548,866 (Rs. 82,33,000) a year and the provinces benefited were Bengal, the United Provinces, Bihar and Orissa, and to a smaller extent the Punjab and the North-West Frontier Province. The income of district boards in Bengal, the United Provinces and Bihar and Orissa has mainly by this measure been increased by 44, 43 and 55 per cent., respectively, in the year 1913-1914. This notable expansion will enable them in future to undertake or develop many beneficent activities from which they have hitherto been debarred by lack of financial means.

The following statements show the proportions under various heads of income and expenditure of the district boards in the different provinces for the year 1912-1913 :—

Taxation

30. It was the opinion of the Commission that district boards should not be empowered to raise the land cess beyond one anna in the rupee on the rent value, as this would be an unpopular measure. Under present conditions any proposal to raise the limit imposed by the existing law would require the previous sanction of the Government of India. Such proposals would need the most careful consideration on the merits, and the Government of India do not consider it necessary for the present to make any pronouncement on the subject.

Rail way or tram way cess.

31. The Commission proposed to allow district boards to levy a special extra land cess of 3 pies in the rupee on the annual rent value of land for the construction of light railways or tramways conditional on the approval of the tax by not less than three-fourths of the members of the board. This resolution would be subject to confirmation after a period of six months by an equal majority at a like meeting and to the sanction of the local Government. The Government of India, after consulting local Governments, have, with the sanction of the Secretary of State, empowered local Governments to undertake legislation, if they so desire, in accordance with the Commission's proposals. The scheme is to be commended from many points of view. It has an educative value by associating local self-government with responsibility for taxation for local objects, and it opens up great possibilities of economic development. The actual imposition of the tax will in many instances probably not be necessary; the power to impose it, if necessary, will be sufficient for purposes of guarantee. In a few districts in Bengal the ordinary resources of district boards have proved sufficient for the construction of railways within the limits of the district. The eminently satisfactory results which have attended the construction of district board lines in the presidency of Madras encourage the Government of India to hope that the financial results of carefully selected schemes will in the course of a few years materially strengthen the financial resources of district boards which are in a position to undertake the construction or guarantee of these lines. Legislation to carry out the proposal has already been undertaken in Assam and is under consideration in the Punjab. The Government of India trust that other local Governments will take steps to confer the necessary powers on the local authorities and that selected boards throughout the country will experiment on the lines suggested.

Methods of railway construction

32. There are two general methods by which district boards, which possess the necessary resources, may secure the construction of a railway within the limits of the district. A district board may wait until the surplus funds, which it has accumulated from the levy of a special cess or otherwise, are adequate to justify it in undertaking construction at its own cost, or it may decide to allow to a company floated for the special purpose of the construction of the proposed railway a firm guarantee on the capital paid up. In such cases, in return for the guarantee, the district board will become entitled to a

share of the surplus profits over a certain fixed percentage accruing from the working of the feeder railway. If the former method be adopted, it will usually be found convenient and economical to entrust the construction and working of the railway owned by the district board to the main line—whether worked by the State or by a company—with which the district board railway connects. In the latter case, the branch line company receiving the district board's guarantee may itself undertake construction and working, or may arrange for construction and working through the agency of the main line. The Government of India are of opinion that when a light railway using steam locomotives is projected outside urban limits it will ordinarily be preferable to deal with the project as a railway under the Railways Act, rather than as a tramway under the Tramways Act. In any event the sanction of the Railway Department is necessary in order to ensure that the project shall not conflict with others which that department may have under their consideration, and the Railway Department will at all times, when so desired, endeavour to arrange suitable terms for construction and working on behalf of the district board, or on behalf of a company which has received a district board guarantee. As a result of a recent reference from the Government of Madras the Government of India have decided that when a district board has accumulated a sum which, though substantial, is insufficient to meet the entire cost of a railway project which a district board desires to carry out, there is no objection to the raising of a debenture loan on the security of the railway to be constructed and the potential resources which a district board possesses through the power to continue the levy of a railway cess. For the redemption of such debentures a special sinking fund need not be accumulated. By this expedient a district board may become the owner of a district railway at a much earlier date than would formerly have been possible. A large field is thus offered for district board enterprise. This recent decision will, it is hoped, be of substantial assistance in accelerating the construction of local feeder railways outside the Imperial programme.

Budgets and financial control.

33. A further recommendation was that rural boards should be given full power to pass their budgets subject only to the maintenance of a prescribed minimum balance. The procedure recommended by the Commission is stated to be already in force in the Bombay Presidency. Other local Governments generally are not prepared to accede to this complete removal of restrictions, although some of them propose some relaxation in the existing rules. The Government of India consider that the present restrictions on the powers of the boards with regard generally to budget expenditure should be gradually relaxed with due regard to local conditions and requirements. The fact that an official is almost invariably president of a rural board and that powers of inspection and control by certain officers of Government are provided under the Acts relating to rural boards should ordinarily, in their opinion, be sufficient safeguards against gross inefficiency or mismanagement.

Estimates for public works.

34. The commission also proposed that the existing stringent restrictions on rural boards with regard to estimates for public works should be removed. At present rural boards have to obtain outside sanction in respect to roads and other public works, the estimates of which involve any considerable amount, the limits varying for different provinces. In the opinion of the Government of India, which has the general support of local Governments, the grant to rural boards of full powers in the allotment of funds and the passing of estimates cannot, for the present at least, be conceded, but the extent of the necessary financial control might depend in the case of rural boards on the competence of the staff employed, and, where this varies, it would not be desirable to lay down hard and fast rules for the whole province. In such cases district boards might be placed in different classes according to the staff employed. The Government of India accept the view of the Commission that in districts where there are sufficient works to justify the special appointment of a trained engineer, a district board which desires to entertain such an officer and can afford to pay him an adequate salary should be permitted to do so.

Establishments

35. The Government of India have come to the same conclusions in the case of establishments of rural boards as in the case of municipalities (paragraph 23 *supra*). They have recently, in their Sanitary Resolution Nos. 888-908, dated the 23rd May 1914, expressed the opinion that the appointment of well-qualified and

whole-time district sanitary officers to control and organise all sanitary arrangements and experiments in the district is one of the urgent needs of the present time.

Special outside control

36. Special powers of control over rural boards are vested in outside authorities under the existing Acts, and the Commission recommended that these should continue. The local Governments in general as well as the Government of India accept this view.

VILLAGE ORGANISATION—PANCHAYATS OR OTHER COMMITTEES.

Recommendations of the Commission.

37. The Commission recommended the constitution and development of village panchayats possessed with certain administrative powers, with jurisdiction in petty civil and criminal cases, and financed by a portion of the land cess, special grants, receipts from village cattle-pounds and markets, and small fees on civil suits. This proposal, favourably commended by the Government of India, who expressed their readiness to acquiesce in some form of permissive taxation, if need be, has in general been sympathetically received. The practical difficulties are, however, felt to be very great in many parts of India. The Government of Burma and the Chief Commissioner of the Central Provinces deprecate the introduction of a system which, in their judgment, is alien to the customs of the people and will not command public confidence. Other Governments are willing to experiment, but on different lines. The Punjab Government has already established panchayats for civil cases only and of a voluntary character. Sir Leslie Porter, when officiating as Lieutenant-Governor of the United Provinces, expressed his willingness to entrust selected panchayats with criminal as well as civil jurisdiction. The Madras Government are desirous of experimenting in the establishment of panchayats but consider that action should be confined for the present to the encouragement of voluntary self-contained organisms independent of statutory sanction and consisting of village elders conferring together for common village purposes. So far as judicial functions are concerned, they are content to rely on the provisions of the Madras Village Panchayats Regulation, 1816, and the Madras Village Courts Act, 1888, which authorise the assembling of panchayats and the convening of village bench courts for the settlement of particular civil suits on the application of the parties and to encourage the operation of these enactments wherever practicable. The Governments of Bengal and of Bihar and Orissa are of opinion that their existing laws sufficiently provide for the establishment of panchayats with administrative duties, while powers to dispose of criminal cases could be given under the existing Acts dealing with these matters. The Chief Commissioner of Assam has expressed his readiness to develop village government, and the Local Self-Government Bill which has recently passed the Legislative Council of that province permits the constitution of village authorities, the grant of funds by local boards and from other sources, and the delegation of minor powers of local control. The whole question has now been raised again in the discussions contained in the report of the Bengal District Administration Committee, 1913-1914.

Panchayats.

38. The Commission recognised that any policy of establishing panchayats would be the work of many years, would require great care and discretion, and much patience and judicious discrimination between the circumstances of different villages. The Government of India desire that where any practical scheme can be worked out in co-operation with the people concerned, full experiment should be made on lines approved by the local Government or Administration concerned. Throughout the greater part of India the word "panchayat" is familiar. The lower castes commonly have voluntarily constituted panchayats, to whom they allow quasi-judicial authority in social matters. The more artificial administrative committees such as chaukidari panchayats, local fund unions, and village sanitation and education committees, and, in places even village panchayats, already exist. The spread of co-operative societies and the distribution of Government advances in times of famine and scarcity on joint security are educative influences. Village tribunals for the disposal of petty civil suits have got beyond the experimental stage in some places and are in the experimental stage in others. There is, therefore, some material with which to build. The Government of India agree, however, with the view prominently brought forward by the Bengal District

Administration Committee that much will depend on the local knowledge and personality of the officers who may be selected to introduce any scheme.

General principles.

39. With this general commendation, the Government of India are content to leave the matter in the hands of local Governments and Administrations. They are disposed to consider that the following general principles indicate the lines on which advance is most likely to be successful :—

(1) The experiments should be made in selected villages or areas larger than a village, where the people in general agree.

(2) Legislation, where necessary, should be permissive and general. The powers and duties of panchayats, whether administrative or judicial, need not and, indeed, should not be identical in every village.

(3) In areas where it is considered desirable to confer judicial as well as administrative functions upon panchayats the same body should exercise both functions.

(4) Existing village administrative committees, such as village sanitation and education committees, should be merged in the village panchayats where these are established.

(5) The jurisdiction of panchayats in judicial cases should ordinarily be permissive, but in order to provide inducement to litigants reasonable facilities might be allowed to persons wishing to have their cases decided by panchayats. For instance, court-fees, if levied, should be small, technicalities in procedure should be avoided, and possibly a speedier execution of decrees permitted.

(6) Powers of permissive taxation may be conferred on panchayats, where desired, subject to the control of the local Government or Administration, but the development of the panchayat system should not be prejudiced by an excessive association with taxation.

(7) The relations of panchayats on the administrative side with other administrative bodies should be clearly defined. If they are financed by district or sub-district boards, there can be no objection to some supervision by such boards.

PRESIDENCY CORPORATION AND RANGOON.

Recommendations of the Commission.

40. The Commission recommended that all the presidency corporations should be invested with the powers possessed by the Corporation of Bombay, and that the system of administration in force in that city, viz., that of nominated official Commissioner in combination with an elected chairman, should be extended to the other towns. They also considered that the same privileges should be conferred on the Rangoon municipality in view of its population, the large future which lies before it, and the strength of its commercial community.

Bombay, Calcutta, Madras

41. The presidency municipalities are regulated by special Acts, and their resources and powers are far greater than those of any district municipality. In Calcutta and Madras the municipal chairman is appointed by Government. In Bombay he is elected, but the executive administration is vested in a Commissioner nominated by Government. He is assisted by a Deputy Commissioner appointed by the corporation subject to the confirmation of Government. The Commissioner possesses wide executive powers ; in some matters he must obtain the sanction of the standing committee (a statutory body one-third of whose members are nominated by Government) ; in others, again, of the corporation. The corporation enjoys a very full discretion in the work of municipal administration ; it passes its own budget, and may impose taxation within the limits of the law, and the sanction of Government is necessary only to the appointments of health officer and engineer.

The Corporation of Calcutta possesses similarly wide powers. The sanction of Government is, however, required to the execution of works costing one lakh of rupees or more and to the salary of any employé drawing more than Rs. 1,000 a month, as well as to the appointments of health officer and engineer.

In Madras the Government possess numerous powers which are not reserved to the Governments of Bengal and Bombay.

The adoption of the Bombay constitution

42. As regards the main proposal of the Commission, the Government of Bengal were in 1909 disposed to agree with the preference expressed for the constitution of the Bombay municipality in respect of the offices of municipal Commissioner and chairman, but stated that the point would be considered hereafter, should the amendment of the Calcutta Municipal Act be undertaken. The Government of Madras agree with the corporation as to the advisability of introducing the Bombay system, and they have no objection to the general emancipation of the corporation from Government control, provided that the municipal Commissioner is placed in a position substantially as strong as he occupies in Bombay.

43. The Government of India have accepted in the main the recommendations of the local Governments which will go far towards carrying out the proposals of the Commission. They have expressed to the Government of Madras the opinion that a free hand might be left to the corporation to impose, without the sanction of Government, any tax specifically sanctioned by the Act with regard to which maximum rates have been laid down therein. They consider that in order to provide security of tenure, the health officer, revenue officer, and engineer should not be removeable without the sanction of Government. In the case both of Calcutta and Madras, the limit of cost of works which may be undertaken without the sanction of Government will be raised to Rs. 2½ lakhs, and, with regard to Calcutta, the Government of Bengal have agreed to remove the restriction requiring the sanction of Government to salaries carrying more than Rs. 1,000 a month. The appointments of health officer and engineer will continue to require this sanction.

Rangoon

44. With regard to Rangoon, the Government of Burma is not prepared to make the concessions recommended. The circumstances of Calcutta, Madras and Rangoon are in many respects widely different, and the Government of India defer, at any rate at present, to the views of the local Government on this point. But they observe, as a general proposition, that in cities where there is a responsible public press and representation in the Provincial councils, the case for entrusting large powers and extended freedom to the municipal bodies appears to be specially strong.

Local Government board

45. The suggestion that Government control over rural boards and municipalities should be exercised in each province by a local Government board, which should contain a proportion of non-official members, was not accepted by the Commission. They considered that, since their proposals would greatly reduce the outside control exercised over the proceedings of municipal and rural boards and would provide for the delegation in large measure of such powers of guidance as are necessary to commissioners and other local officers, no benefit would be derived from the creation of a special controlling board of this nature. The Government of India also are not prepared to support the proposal, which is not only unnecessary in the opinion of the local Governments consulted but is undesirable as tending to perpetuate the very centralisation in local affairs which it is the object of Government to diminish.

Conclusion

46. In conclusion the Governor-General in Council hopes that this declaration of policy may lead to steady and sound progress, without hampering local Governments and Administrations or unduly fettering local self-government. It is designed to mark a definite advance in devolution and political education. His Excellency in Council trusts that it will be interpreted in the spirit in which it is framed, a spirit of prudent boldness, calculating risks but not afraid to take them in the cause of progress.

No. 1291 L.S.-G.—The 2nd June 1915.—In exercise of the power conferred by section 8 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), the Governor in Council is pleased to fix the number of members of the Sadar, Tangail and Jamalpur Local Boards in the district of Mymensingh at 16, 14 and 12, respectively, with effect from the date of this notification.

P. BRÜHL, *Registrar.*

SENATE HOUSE, *the 7th June 1915.*

PROSPECTUS.

[APPROVED BY THE GOVERNMENT OF BENGAL.]

ON the 2nd of July next, the Government of Bengal will open at Hastings House, Alipore, a residential school for the sons of Indian gentlemen. The Hastings House property has been placed by the Government of India at the temporary disposal of the Government of Bengal for this purpose.

Hastings House will provide accommodation for 50 boarders. The complete scheme which has now been sanctioned provisionally by the Secretary of State for India contemplates the admission of this number of boarders as a minimum and the engagement of a staff consisting of an English Head Master, with two English and six Indian Assistant Masters. The English Head Master and the two English Assistant Masters will reside on the premises.

Owing to difficulties which have arisen as a result of the war in Europe, it has been decided to make a start with a smaller staff and a reduced number of boys. Mr. W. F. Papworth, B.A. (University of London), has been engaged as an Assistant Master, and he, with the assistance of a staff of four Indian Assistant Masters, will start the school.

The school will be under the immediate supervision of the Director of Public Instruction. There will also be an Advisory Committee of Indian gentlemen.

The number of boarders to be admitted in July next will be restricted to an absolute maximum of 40. The original scheme provides for the education of boys from the age of 10 up to the age of 18, and directs that an age-limit of 10—13 years shall be observed in granting admission to new boys. It has been decided, however, that during the first three years of the school's existence, some latitude will be allowed in the matter of age-limits for admission. Preference will usually be given to those boys whose ages are within the limits specified in the original scheme, but it will for the present be within the discretion of the Assistant Master-in-charge to admit boys whose ages do not fall within these limits.

The school is to be essentially a boarding school, but, to start with, a few day scholars may be admitted with the special sanction of the Director of Public Instruction, Bengal.

Curriculum.—The medium of instruction will, in all cases, be English; but the study of the Vernacular and Classical Oriental Languages will form a compulsory part of the curriculum. The work of the school has been arranged to suit not only those boys who will ultimately proceed to British Universities, more especially Oxford or Cambridge, but also boys who will complete their studies at one of the Indian Universities. To secure both these aims it has been decided to adopt for the first few years the Cambridge University Local Examinations as the standard by which the school work may be gauged.

The school will be divided into Forms in the manner indicated below :—

LOWER SCHOOL—

Form I.
Form II.

UPPER SCHOOL—

Form III.
Form IV (Lower).
Form IV (Upper. Cambridge Junior Local Examination).
Form V.
Form VI (Cambridge Senior Local Examination).

The standard of work in the school will not be restricted to the requirements of the Cambridge Local Examinations. From the outset the curriculum will be directed with a view to taking the examinations of the Oxford and Cambridge Schools Examination Board for Lower and Higher Certificates, as soon as the necessary arrangements can be concluded with the Board in England.

Boys, whose parents or guardians desire it, will be sent up for the Matriculation Examination of the Calcutta University. In this connexion, however, it may be pointed out that the Cambridge Senior Local Examination, if passed under certain conditions, which include at present a course of further study for *one* year after the examination has been successfully taken, is recognized by the University of Calcutta as admitting students direct to the B.A. and B.Sc. courses. The rules which regulate the recognition of the Cambridge Local Examinations are now under consideration by the Syndicate, and the examinations of the Oxford and Cambridge Schools Examination Board have not yet come within the purview of the University of Calcutta. The Syndicate will be approached with reference to the recognition of the Higher Certificate awarded by the Oxford and Cambridge Schools Examination Board for the purposes of admission to Calcutta University courses. This certificate is accepted under certain conditions by the Universities of Oxford and Cambridge as exempting its holder from Responsions at Oxford or the Previous Examination at Cambridge.

The Assistant Master-in-charge desires to emphasize the fact that public examinations of the nature indicated above are valuable only in so far as they serve as a standard of the actual work of a school. These examinations will be taken as a matter of course at certain stages of the school curriculum; all the boys in Form IV (upper) and Form VI will, for example, be presented, so long as the Cambridge Local Examinations are taken, for the Cambridge Junior and Senior Local Examinations respectively. The private coaching of pupils of the school by members of the staff will not be allowed; but if the Assistant Master-in-charge considers that any particular boy requires additional tuition, he will make the necessary arrangements for this to be given by one or more of the masters of the school, who will not receive any remuneration for the extra work involved.

Fees.—For boarders Rs. 100
For day boys „ 25 } a month, payable for 12 months.

These fees include, in the case of boarders, tuition, board and lodging; in the case of day-boys, tuition.

There will be a further charge of Rs. 5 a month, payable for 12 months, to cover laundry, subscriptions for games, the supply of stationery and medical attendance. Day boys will be charged a sum of Rs. 2-8 a month, payable for 12 months, to cover games and stationery charges.

Bills and the payment of fees.—Bills will be sent out on the first day of each month and should be paid to the Assistant Master-in-charge before the fifteenth day of the same month. Parents and guardians are requested to note that the school fees and the charge for extras are annual charges paid in monthly instalments, and as such must be paid for every month of the year. When a boy is to be removed from the school, at least a month's notice of withdrawal should be given; in default of such notice a month's fee will be charged. The Assistant Master-in-charge trusts that parents and guardians will, as far as possible, refrain from withdrawing boys, except at the end of a term.

Pocket money.—Parents and guardians will be asked to state the amount of pocket money they wish their boy to receive. The amount agreed upon will be paid to the boys by the Assistant Master-in-charge. No boy in the Upper School will be allowed to have more than Re. 1-8 a week; and no boy in the Lower School more than annas 12 a week.

Subjects of study.—The following table shows the subjects which will be studied in each Form:—

FORMS I AND II.—English, Arithmetic, History, Geography, Drawing, Manual Instruction, Hygiene, Vernacular.

A boy who is declared by the school medical officer or any other duly qualified medical practitioner to be physically unfit to take part in the school games will be exempted.

Medical attendance.—There will be a hospital in the grounds of Hastings House, which will be under the care of a resident trained nurse. The school will be under the general charge of one of the members of the Civil medical staff of Alipore.

Boarding arrangements.—The feeding of the boarders will be arranged by the Assistant Master-in-charge. Parents are asked to co-operate with the authorities in their efforts to secure that the boys should be fed in the way most conducive to their health by not sending their sons presents of food and sweets. There will be a sweetman living in the compound, who will be under the direct control of the Assistant Master-in-charge, and the boys will be allowed to purchase from him at certain hours sweets and mineral waters.

Discipline.—The Assistant Master-in-charge will be resident, and together with the rest of the staff he will be in close touch with the boys. The school authorities reserve to themselves the right to require a parent or guardian to withdraw a boy whose influence is considered harmful or whose lack of progress hampers the work of the school. The Assistant Master-in-charge hopes for the full support and co-operation of the parents in all matters affecting the discipline of the school.

Boys will be permitted to visit their parents or guardians in Calcutta on the last Sunday in each month. A boy will not be allowed to accept an invitation from any one who is not a close relative, unless the Assistant Master-in-charge has been informed by the parent or guardian of the boy that it is his wish that he should accept the invitation. All applications for leave under these conditions should be submitted in writing. Any boy who has failed to report his return by the time stipulated upon his "exeat" may be punished to the extent of forfeiting his leave for the rest of the term. THE SCHEDULE.

PART I.

Bengal Regulations.

Year.	No	Short Title	Amendments.	Areas in which amendments are to have effect.	REMARKS.
1	2	3	4	5	6
1810	XIX	The Bengal Charitable Endowments, Public Buildings and Escheats Regulation, 1810	In section 7, for the words "report to Government whether it should in their opinion" substitute the words "direct whether it should".	All areas in Bengal in which the Regulation is in force.	The object of this amendment is to transfer to the Board of Revenue the power to direct sale or other disposal of escheated property. Escheat cases are virtually dealt with by the Board and reference to Government is merely formal.
1822	VII	The Bengal Land-revenue Settlement Regulation, 1822	In section 10, clause *First*, second paragraph,— (*i*) the amendment made by the Amending Act, 1908, Schedule II, Part I, is repealed; and (*ii*) for the words "shall be competent to the Governor General in Council" substitute the words "shall be competent to the Local Government or such other authority to whom the power to confirm settlements may be delegated by the Local Government by notification in the local official *Gazette*".	Ditto ...	The object of these amendments is to give power to a subordinate revenue authority to confirm settlements and to determine the distribution of profit resulting from limitation of *jama*
1825	IX	The Bengal Land-revenue Settlement Regulation, 1825	In section 4, first paragraph,— (*i*) omit the words "and subject to the orders of Government"; (*ii*) the amendment made by the Amending Act, 1908, Schedule II, Part I, is repealed; and (*iii*) for the words "Governor-General in Council" substitute the words "Board of Revenue"	Ditto ...	The object of these amendments is to delegate to the Board of Revenue the power— (*a*) to pass orders on the annulment of existing engagements with defaulting *malguzars*, and (*b*) to appoint the period for which, upon such annulment, the estate may be let in farm or held *khas* The Board's proposals in these matters are always accepted by Government.

1	2	3	4	5	6
1866	II	The Calcutta Suburban Police Act, 1866.	In section 47A, sub-section (*d*), for the words "with the previous sanction" substitute the words "subject to the administrative control". 1866	IV	The Calcutta Police Act, 1866.	1. In section 6, for the words "Governor General of India in Council" substitute the words "Governor in Council". 2. In section 78A, sub-section (*d*), for the words "with the previous sanction" substitute the words "subject to the administrative control."	The town of Calcutta, as defined in section 3.	These two amendments are also based on paragraph 259 of the Decentralization Commission's report.
1871	IV	The Puri Lodging-house Act, 1871.	In section 2, and in section 22, for the words "Lieutenant-Governor of Bengal" substitute the words "Commissioner of the Division".	All areas in Bengal in which the Act is in force	It is considered that the powers under these sections may suitably be exercised by Commissioners without reference to Government.
1875	V	The Bengal Survey Act, 1875.	1. In section 58, for the words "Board of Revenue", in both places in which they occur, substitute the words "Local Government". 2. In section 63, for the words "With the sanction of the Lieutenant-Governor, the Board of Revenue" substitute the words "The Local Government".	Ditto ...	The object of these amendments is to transfer from the Board of Revenue to Government the supervision and control of all survey operations and the power to make rules under the Act.
1876	VII	The Land Registration Act, 1876.	In section 64, second proviso, for the word "Board" substitute the words "Commissioner of the Division".	Ditto ...	The object of this amendment is to transfer from the Board to the Commissioner of the Division the power to remit fees leviable on the registry of transfers under the Act.
1879	IX	The Court of Wards Act, 1879.	1. In clause (*c*) of section 6, for the words "Local Government" substitute the word "Court".	Ditto ...	Amendment 1. The Decentralization Commission proposed that power under clause (*c*) of section 6 should be delegated to the Board of Revenue (*i.e.*, the Court of Wards under this Act). This clause was inserted by the Court of Wards Act (Bengal) Amendment Act, 1892 (IV of 1892), section 3. Since then the Local Government have now, in any case, declined to accept the Board's proposal. Consequently it is deemed unnecessary to retain this power in the hands of Government.
			2. In section 15, second paragraph, omit the words "with the sanction of the Lieutenant-Governor" and also the words "with the like sanction".	Ditto ...	Amendment 2. The object of these amendments is to authorise the Court of Wards to delegate its powers under the Act and to revoke any such delegation without reference to the Local Government.
			3. In section 61,— (*i*) for the words "Lieutenant-Governor" substitute the word "Court"; and (*ii*) omit the words "on application made to him through the Court".	Ditto ...	Amendment 3. This delegation from the Government to the Court of Wards was recommended by the Decentralization Commission. The section is seldom used and it is considered that there is no reason for the Government to retain the particular powers concerned.

1884	III	The Bengal Municipal Act, 1884.	1. In section 14, second paragraph,— (*i*) after the words "such Commissioners shall" insert the words "subject to the administrative control of the Local Government"; and (*ii*) for the words "Local Government", in the two places in which they occur, substitute the words "Commissioner of the Division".	All Municipalities within the Division.	Amendment 1 (*i*).—It is deemed advisable that this delegation should be exercised subject to the administrative control of the Local Government. It has already been decided to apply this principle in the case of District Boards. Amendment 1 (*ii*).—The object of this amendment is to delegate to the Commissioner of the Division the power, at present vested in the Local Government, to appoint one-third of the Commissioners of Municipalities not mentioned in the First Schedule to the Act. The power in question is already, as a matter of practice, exercised in accordance with the recommendation of the Divisional Commissioner. This being so, it is important that the responsibility for the action taken should rest with those who in fact possess the power. This change of procedure would be analogous to the appointment of members of District Boards by Divisional Commissioners under the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885).
			2. In section 16, second paragraph, for the words "Local Government" substitute the words "Commissioner of the Division".	Ditto ... Amendment 3 (*i*).—The object of this amendment is to delegate to the Commissioner of the Division the power to appoint Municipal Commissioners in Municipalities in which the elective system is not in force. (*See* remarks against amendment 1, above.) Amendment 3 (*ii*).—It is deemed advisable that this delegation should be exercised subject to the administrative control of the Local Government.
			4. In section 19,— (*i*) for the words "Local Government" substitute the words "Commissioner of the Division"; (*ii*) for the word "it" substitute the word "he"; and (*iii*) after the word "Act" insert the words "in any municipality in his Division"	All Municipalities within the Division.	Amendment 4(*i*) to (*iii*).—The object of these amendments is to delegate to the Commissioner the power, at present vested in the Local Government, to remove a Municipal Commissioner who has been found guilty of misconduct in the discharge of his duties.

In section 28,— (*i*) in sub-section (*1*), for the words "Local Government" substitute the words "Commissioner of the Division", and after the word "municipality" insert the words " in his Division"; (*ii*) in sub-section (*2*), for the words "Local Government" substitute the words "Commissioner of the Division"; and (*iii*) in sub-section (*3*), for the words "Local Government" substitute the words "Commissioner of the Division", and for the word "it" substitute the word "him".	Amendment 5 (*i*)—Such of the Municipalities in Bengal as are mentioned in the Second Schedule to Bengal Act III of 1884, as revised from time to time by orders issued under section 8 or section 23, sub-section (*4*), of that Act. Amendment 5(*ii*).—Such of the Municipalities in Bengal as are not mentioned in the Second Schedule to Bengal Act III of 1884 as so revised. Amendment 5(*iii*).—All Municipalities within the Division.	Amendment 5(*i*) and (*ii*).—The object of these amendments is to delegate to the Commissioner of the Division the power at present vested in the Local Government to appoint Chairmen for Municipalities mentioned in the Second Schedule to the Act and also to appoint Chairmen for Municipalities which, though they enjoy the right to elect their Chairmen, may, under sub-section (*2*) of section 23, request the Local Government to appoint Chairmen for them. The power in question is already, as a matter of practice, exercised in accordance with the recommendations of the Divisional Commissioner. This being so, it is desirable that the responsibility for the action taken should rest with those who in fact possess the power. Amendment 5 (*iii*) is consequential upon amendments 5(*i*) and 5(*ii*).
			6 In section 59,— (*i*) for the words "Local Government", at the end of the section, substitute the words "Commissioner of the Division"; and (*ii*) to the said section add the following, namely:— "Provided as follows:— (*i*) if the Commissioner of the Division disapproves of any resolution passed by the Commissioners under section 23 or section 27 for the election of a Chairman, he shall refer the matter to the Local Government; (*ii*) the power of the Commissioner of the Division to approve resolutions, passed by the Commissioners, under section 47, in respect of any of the matters specified in clause (*d*) of this section shall be subject to the administrative control of the Local Government."	All Municipalities within the Division. Amendment 6 (*ii*).—Proviso(*i*).—In cases in which the Divisional Commissioner does not approve of the resolution, it is considered advisable that the matter should be referred to the Local Government. Proviso (*ii*).—On the analogy of sections 35 and 35A of the Bengal Local Self-Government Act of 1885, the power to approve resolutions passed by Municipal Commissioners under section 47 of this Act should be exercised by the Commissioner of the Division, subject to the administrative control of the Local Government.
			7. In section 86, first paragraph, after the words "Local Government" insert the words "in respect of the tolls, and of the Commissioner of the Division, in respect of the tax, fee and rates"	Ditto ...	Amendment 7.—The object of this amendment is to delegate to the Commissioner of the Division the power, at present exercised by the Local Government, to sanction the levy of— (*1*) a tax on carriages, horses and other animals named in the Fifth Schedule to this Act; (*2*) a fee on the registration of carts; (*3*) a water-rate; (*4*) a lighting rate; and (*5*) a fee for the cleansing of latrines.

			10. In section 351A,— (*i*) for the words "Local Government", in the two places in which they occur in sub-section (*2*), substitute the words "Commissioner of the Division"; and (*ii*) to the said section 351A add the following, namely:— "(*3*) The power conferred upon the Commissioner of the Division by this section to sanction rules made thereunder and to direct the manner of publishing them shall be exercised by him subject to the administrative control of the Local Government." 1	2	3	4	5	6
1890	III	The Calcutta Port Act, 1890—*concld*	4 The proviso to section 48 is repealed 5 For section 51 substitute the following, namely:— "51. No new work the estimated cost of which exceeds two lakhs of rupees shall be commenced by the Commissioners until the plan and estimate thereof have been submitted to, and approved by, the Local Government"	The Port of Calcutta.	Amendments 4 and 5.—In the Bombay Port Trust Act, 1879 (Bom Act VI of 1879), there is no such provision as the proviso to section 48 of the Calcutta Port Act. In view of this fact, and also in view of the extended power which will be exercised by the Commissioners under the proposed amendment of section 51 of that Act, the Local Government consider it desirable to surrender their power of sanctioning contracts in respect of new works. The Government of India having agreed to surrender their power of sanctioning all works the estimated cost of which exceeds two lakhs of rupees, the proposed amendment will give authority to the Local Government to sanction all works the estimated cost of which exceeds Rs. 50,000. The Government of India have proposed that the power of sanction hitherto exercised by the Commissioners under sub-section (*1*) of section 51 might with advantage be raised from the existing maximum of Rs. 50,000 to two lakhs of rupees. The amendments now suggested will effect this proposal. The words "nor shall any contract be entered into by them in respect of any such work" have been omitted in view of the proposed repeal of the proviso to section 48
			6 In section 90, first paragraph, omit the words "when thereunto required by the Local Government." 7 In section 92, omit the words "with the sanction of the Local Government." 8 In section 97, sub-section (*1*),— (*i*) omit the words "with the sanction of the Local Government"; and (*ii*) for the words "and with the same sanction" substitute the words "with the sanction of the Local Government."	Ditto ...	Amendments 6, 7 and 8.—It is considered that the Port Commissioners are in a better position than the Local Government to judge when action is necessary under section 90, first paragraph, section 92 or section 97, sub-section (*1*). Amendment 8 (*ii*) is consequential upon amendment 8 (*i*) The Local Government do not think it advisable to give the Commissioners unrestricted power to close private wharves and jetties against the traffic of inland vessels.
1897	V	The Estates Partition Act, 1897.	1. In section 41,— (*i*) in sub-section (*1*), for the words "Lieutenant-Governor" substitute the word "Board" and for the word "he" substitute the word "it"; and (*ii*) in sub-section (*3*), for the words "Lieutenant-Governor", in the two places in which they occur, substitute the word "Board."	All areas in Bengal	Amendment 1(*i*) and (*ii*).—The object of these amendments is to transfer from Government to the Board of Revenue the power to direct that the salary of Deputy Collectors, and the cost of special establishments employed on partition work, shall be recovered as part of the costs of partitions.
			2. In section 102, for the words "Lieutenant-Governor", in the two places in which they occur, substitute the word "Board"	Ditto ...	Amendment 2.—The object of this amendment is to transfer from Government to the Board of Revenue the power to order a new allotment of the land-revenue upon separate estates formed by partition.
			3. In section 103,— (*i*) in sub-section (*1*), for the words "Lieutenant-Governor" substitute the word "Board" and for the word "he" substitute the word "it"; and (*ii*) in sub-section (*2*), for the words "Lieutenant-Governor" substitute the word "Board."	Ditto ...	Amendment 3(*i*) and (*ii*).—The object of these amendments is to transfer from the Government to the Board the power to require proprietors of under-assessed estates to make refund to proprietors of over-assessed estates when a new allotment of land-revenue is made under section 102.
			4. In section 110, sub-section (*1*), for the words "Lieutenant-Governor" substitute the word "Board"	Ditto ...	Amendment 4.—The object of this amendment is to transfer from Government to the Board of Revenue the power to vest Collectors or Deputy Collectors with settlement powers for the purposes of the Act.

STATEMENT OF OBJECTS AND REASONS.

IN accordance with the recommendations of the Royal Commission on Decentralization, a general Delegation Bill, providing, with certain safeguards, for the delegation by notification to a lower authority of powers and duties vested by law in a higher authority, was introduced in the Imperial Legislative Council on the 22nd September, 1911. It was eventually decided, however, to abandon that Bill, and to substitute for it, both for India generally and for each Province, a Decentralization Bill, accompanied by Schedules in which the delegations of powers which it is proposed to effect in particular Acts are precisely indicated. A Decentralization Bill on these lines in respect (almost entirely) of enactments of the Governor General of India in Council was introduced in the Imperial Legislative Council on the 17th September, 1913, and has since become law as Act IV of 1914. The present Bill deals with those Bengal Regulations and Acts of the Bengal Council in regard to which it is considered that certain delegations can usefully be made.

2. No Act, however, which has been in existence for less than five years, has been dealt with in the Bill, on the ground that it is considered expedient at present to amend those enactments only in the working of which considerable experience has been gained. The nature and extent of the amendments contemplated in each case will be found set out in columns 4 and 5 of the Schedule to the Bill, while the reasons underlying the same are explained in column 6. Column 5 has been inserted because, owing to the territorial changes in Bengal, some of the enactments dealt with, *e.g.*, Bengal Regulations VII of 1822 and IX of 1825 and the Puri Lodging-house Act, 1871, are in force in certain areas which are not now in Bengal, and also because the amendments in section 23, sub-sections (*1*) and (*2*) of the Bengal Municipal Act, 1884, will only apply to certain Municipalities in Bengal. Column 6, which has been inserted in order to facilitate the consideration of the Bill in its preliminary stages, will be removed after the Bill has passed the Select Committee stage.

3. So far as enactments dealing with revenue and cognate matters are concerned, it is proposed to legislate in three directions. The first is in the substitution of the control of the Governor General in Council for his sanction in connection with the framing of rules, or in the elimination of control where such control is considered unnecessary. The second is in the delegation to a lower agency of certain powers which are at present vested in the Government of India, in the Local Government or in the Board of Revenue, respectively; while the third is in the transfer of certain powers from the Board of Revenue to the Local Government with a view to relieving the Board of certain of the duties at present entrusted to it.

BRITISH POSSESSIONS.

CAUTION WHEN APPROACHING BRITISH PORTS.

No. 115 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 274 of 1915), are republished :—

PART I.

CLOSING OF PORTS.

Former Notices.—Nos. 1 and 101 of 1915 (*This Office Nos. 45 and 73 of 1915*) : hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) **If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.**

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Examination Anchorage. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned in Part III, serious delay and risk will be avoided if four efficient all-round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.

By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.
(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the distinguishing signal of their vessel ready to hoist immediately the Examination Steamer makes the signal.

(9) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there, or keep the sea.

Whilst at anchor in the Examination Anchorage, Masters are warned that they must not lower any boats (except to avoid accident), communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer.

(10) In case of fog, Masters are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(11) Merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night: the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

SWEEPING OPERATIONS.

H.M. Vessels are constantly engaged in sweeping operations off ports in the United Kingdom.

Whilst so engaged, they work in pairs connected by a wire hawser, and are consequently hampered to a very considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which these vessels are engaged, they will show the following signals:—

A black ball at the foremast head and a similar ball at the yardarm, or where it can best be seen, on that side on which it is dangerous for vessels to pass.

For the public safety, all other vessels, whether steamers or sailing craft, must keep out of the way of vessels flying this signal, and should especially remember that it is dangerous to *pass between* the vessels of a pair.

RESOLUTION—No. 1188 P.—D.

READ—

The Report on the Administration of the Jail Department in the Presidency of Bengal for the year 1914

ALSO—

The Reports for the years 1913 and 1912, and the Resolutions of Government recorded thereon

THE total number of prisoners in the jails of Bengal rose from 12,098 at the beginning of 1914 to 13,000 at the end of the year, the increase being

equal to the population of four or five district jails of average size. Overcrowding of the accommodation for male prisoners occurred on occasions in a number of the jails, and it is clear that the question of enlarging the existing jails or of building new jails will have to be faced at no distant date. It is noteworthy that 23 per cent. of the persons imprisoned during 1914 had been previously convicted, while the proportions in the two preceding years were 21 and 17 per cent. The daily average number of undertrial prisoners was 1439, or 13 less than in 1913; the average period of detention was also slightly reduced. Only 6 sentences of imprisonment with whipping were passed during the year. Of the convicts imprisoned, 34·5 per cent. had sentences not exceeding one month. This is an improvement on 1913 when the proportion was 36·2 per cent., but the Governor in Council would be glad to see a further reduction in petty sentences of imprisonment, the effect of which is often more deleterious than deterrent. In spite of the increased jail population, offences were fewer in number, and a smaller number of convicts were punished than in 1913, but the major punishments were slightly more numerous. The penalty of whipping was inflicted in 60 cases, as compared with 56 in the preceding year.

2. The central jails have on the whole a good health record, but the Governor in Council regrets to observe that there was a serious recrudescence of dysentery in Midnapore. The mortality during the year was 21·8 per thousand of the daily average jail population; this rate is slightly higher than in the previous year. There were no deaths in the jails at Howrah and Khulna, while in Hooghly, Berhampore, Darjeeling, Bogra, Pabna and Comilla the mortality was less than 10 per mille. The provincial mortality rate was seriously exceeded only in the Jessore, Rangpur, Dinajpur and Jalpaiguri jails, all of which draw their population from unhealthy tracts. In the last three jails new and improved hospitals are being built or have been sanctioned. In Jessore the Inspector-General attributes the excessive sickness during the year to bad management and the prevalence of flies, and the Governor in Council is glad to see that remedial measures are being taken under Lieutenant-Colonel Buchanan's personal supervision. The autumn of the year was marked by an outbreak of malaria throughout the province, and there was a considerable increase in the number of malarial cases admitted into jail hospitals. The benefit prisoners derive from the regular attention paid to their health in jails and the value of the prophylactic use of quinine are shown by the fact that, though most prisoners have suffered from malaria previous to admission, few are attacked more than once whilst in jail. Fifty-six per cent. of the convicts released during the year had gained in weight, while only 23 per cent. had lost.

3. The Juvenile Jail at Alipore, which was opened in 1908, continues to do good work, but there is much force in the Inspector-General's contention that the beneficial effects of the system are often marred owing to the want of an "After-care Association," which exists in connection with similar institutions in other countries, to obtain employment for and to watch over the boys after their release. There is here an excellent opening for philanthropic effort, as the Prisoners' Aid Society is unable to take up the work. An undertrial ward for boys awaiting trial at the Calcutta Courts has been opened in the Juvenile Jail, and a further advance in the treatment of youthful offenders has been made by the establishment in Calcutta of a house of detention, which is not a prison and in which is included a Court for the trial of juveniles under the age of 15 years. These children are not allowed, either during trial or after conviction, to enter a jail.

4. The report contains an interesting account of the part played by the Juvenile Jail in connection with the distribution of quinine. So rapid has been the growth in public favour of the quinine "treatments" in glass tubes that more than 24 million four-grain tablets of quinine were issued in this form, as compared with 6 millions in the preceding year. The value of the quinine sold was Rs. 2,48,088, the profit being Rs. 30,971, of which a large portion will be absorbed by the cost of the glass tubes and the expense of making and packing the tablets. Owing to the war, glass tubes were not procurable for some time, and tin tubes had to be used temporarily. It is expected that glass tubes will again be procurable shortly, though at a considerably increased price, but it is not proposed to raise the price at which the "treatments" are sold to the public. In other jails the usual industries were carried out with efficiency, the most notable features of the year being

the closing of the Press at the Dacca Jail and the opening of a Forms Department at the Alipore Jail.

5. The use of the improved physiological dietaries recommended by Major McCay is reported to be extending gradually, and the number of prisoners who voluntarily adopt a wheat rice dietary is increasing. The experiment has not, however, as yet been carried out on a sufficiently large scale to enable any definite conclusion to be arrived at. Owing to the increasing cost of food-grains, the cost of feeding the prisoners has again risen during the year from Rs. 40-7-6 to Rs. 44-15-6 a head. The Inspector-General gives some remarkable figures showing that since 1911 the average price paid by the Jail Department for rice and paddy has increased by 50 per cent., while the cost of pulses and wheat has increased by 43 and 33 per cent., respectively.

6. The Inspector-General has again referred to the necessity of improving the pay and prospects of the warder guard in order to attract suitable men and to retain them in the service. This question has engaged the serious attention of the Government of Bengal and the Government of India for some time past, and His Excellency in Council hopes that a final decision will not be long delayed.

7. The names of the officers who have been commended by the Inspector-General for good work have been noted. Owing to the numerous transfers of officers consequent on the outbreak of the war, the labours and responsibilities of the Inspector-General were greatly increased, and the Governor in Council desires to thank Lieutenant-Colonel Buchanan for his efficient administration of the department during a year of unusual strain and difficulty.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Prisons, Bengal, for information and guidance.

Ordered also that a copy of this Resolution and a copy of the report be submitted to the Government of India in the Home Department.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council.

RESOLUTION ON THE TRIENNIAL REPORT ON LUNATIC ASYLUMS IN BENGAL FOR THE YEARS 1912, 1913 AND 1914.

FINANCIAL DEPARTMENT

DARJEELING, THE 31ST MAY 1915.

RESOLUTION—No. 80T.—Medl.

READ—

The Triennial Report on Lunatic Asylums in Bengal for the years 1912, 1913 and 1914.

READ ALSO—

The Annual Returns of the Lunatic Asylums in Bengal for 1912 and 1913 with the remarks recorded thereon by the Inspector-General of Civil Hospitals, Bengal.

THE report under review deals with the lunatic asylums of Bengal as reconstituted in 1912. There are three asylums in Bengal—at Berhampore, Bhowanipur (24-Parganas) and Dacca. The figures quoted for the previous triennium refer to the asylums at these places.

2. The problem of accommodation for the insane population of Bengal is one that has been before this Government for some years, and the statistics of population are therefore of special interest at the present time. The daily average strength was 1,063·43 in 1912, 1,084·51 in 1913, and 1,068·76 in 1914, giving a mean average of 1,072·23 for the triennium as against 984·73 for the period 1909-11.

This increase has not been the result of a greater number of admissions, for although the number reached the high figure of 237 in 1912 it fell during 1913 and 1914, and the yearly average for the triennium was 200 against 218 of the previous three years. While the decline in the past two years was in part accounted for by the closure of the Dacca Asylum to lunatics from Assam, it was more probably due to the endeavour which was noticed in the last triennial review to restrict admissions to lunatics whose detention in an asylum is absolutely necessary, and to exclude harmless lunatics who could well be supported and taken care of by their friends and relations. This view finds some support in the statistics of discharges, which show a considerable falling off in the number of cases discharged as cured during the same period. The mortality has shown no great change, but the fall in the number of cures in the past two years, coupled with the number of admissions, would tend to show that care has been taken to refrain from sending the less serious cases of lunacy to the asylums, and that the asylum population consists mainly of cases in which a cure is almost hopeless. It is likely therefore in future that the number of admissions will exceed to some extent the number of deaths and discharges and cause a rise in the daily average. But the excess will not be great and in fact the average excess during the past three years was considerably less than that of the previous triennium.

3. To meet this increasing population, increased accommodation was provided in each of the three asylums in 1912, and in the last two years of the period there was room for 888 males and 206 females as compared with 754 and 196 in 1911. But the need for further accommodation is still pressing. The mean strength (1,072) approximates too closely to the accommodation available, and actually in each of the three years more than 1,100 persons were confined in one night, the greatest number being 1,134 in 1913. The accommodation at Dacca and Bhowanipur is at present just

sufficient, but Berhampore stands in great need of extension and the Surgeon-General is submitting proposals to this end. This will, however, be but a temporary expedient and will only enable matters to be carried on until the new Central Asylum at Ranchi is constructed. It is understood that the Government of Bihar and Orissa has submitted to the Imperial Government the scheme for a Central Asylum at Ranchi to accommodate 1,500 patients in which three-fourths of the accommodation will be at the disposal of this Government. But financial considerations are likely to defer the construction of the building, and in the meantime the Government of Bengal are prepared to take up the additions to the Berhampore Asylum.

4. The total average annual cost of the asylums has again risen, being Rs. 1,94,527 against Rs. 1,67,512 in the previous period. After the Public Works Department charges have been deducted, the average cost per head per annum works out at Rs. 164-14-6 against Rs. 158-0-7 in 1909-11, and the cost has risen from Rs. 161-14-3 in 1913 to Rs. 174-15-3 in 1914. This is mainly due to increase in the cost of diet. Certain revisions in the establishment have been made, and it is satisfactory to note that the increase in pay of the keepers at Berhampore and the abolition of the security hitherto demanded from them has resulted in the right class of persons being attracted to these posts and remaining in them. The extraneous receipts of the asylums are derived from manufactures and from the fees of paying patients. There was a falling off in both cases in the year 1914 when the daily average strength of paying lunatics fell to only 28·99 and unfavourable climatic conditions reduced the receipts of the vegetable garden of the Berhampore Asylum.

5. The average number of European lunatics treated rose from 58 in 1909-11 to 60 in 1912-14, and the average daily strength from 41·75 to 46·24. The need for increased and better accommodation for Europeans, and in particular the provision of a place of observation, are keenly felt. The question is connected with the proposed asylum for Europeans at Ranchi, and until this has been completed the Bhowanipur Asylum must continue to be the asylum for European and Eurasian lunatics from Bengal. Certain alterations and improvements have been made to ameliorate the lot of these lunatics, but conditions will not be entirely satisfactory until the new asylum has been built.

6. His Excellency in Council has noted with satisfaction that the health of the lunatics during the triennium under report shows a marked improvement on the previous period. It was particularly good in 1914 when only 355 lunatics were admitted to hospital as against 830, 487 and 514 in 1911, 1912 and 1913, respectively. The use of quinine as a prophylactic was responsible for reducing fever cases to an exceptionally low figure. Cases of bowel complaints were also comparatively few as a result of the precautionary measures adopted. But tubercular phthisis was again conspicuous and accounted for a very considerable proportion of the deaths. This disease has received great attention from the officers of the asylums, but despite measures of segregation, open-air treatment and careful diet, it is difficult to overcome the unfortunate habits of the insane and to ensure such sanitation and cleanliness as are necessary to eradicate the disease.

7. The Governor in Council has read with much interest and pleasure the account given by the Surgeon-General of the general measures taken for the welfare of these afflicted persons, not only in securing their physical comfort, but also in providing them with suitable employment and amusement, and his thanks are due to all the officers who have held charge of the asylums for the great attention they have paid to the health of the inmates and the steps they have taken to brighten their lives. The Governor in Council agrees with the Surgeon-General in his appreciation of the work of Captain Peebles, who has held charge of the asylum at Berhampore. His thanks are also due to Surgeon-General Harris for his report and for his careful administration during the triennium.

By order of the Governor in Council,

J. DONALD,
Offg. Secretary to the Govt. of Bengal.

ANNUAL REPORT

OF THE

ROYAL BOTANIC GARDEN AND OF THE GARDENS IN CALCUTTA, AND OF THE LLOYD BOTANIC GARDEN, DARJEELING, FOR 1914-15.

ROYAL BOTANIC GARDEN.

1. **General.**—Weather conditions were practically normal throughout the year. The routine work of the garden comprehends the collection of seeds and their distribution to similar institutions and to individuals all over the world, the growing of many thousands of trees and shrubs for distribution throughout India and beyond it, the cutting out of dead trees throughout the garden, the opening up of "jungly" places which are now far fewer in the garden than they used to be, the excision of redundant trees to make room for species unrepresented in the garden, the gradual enrichment of the garden in species and its gradual rearrangement on phyto-geographical lines, the keeping of the lakes and water circulation channels in good condition, and the upkeep of the garden and plant houses generally in a presentable state. All this in a garden of over 270 acres in extent, entails an amount of detailed supervision which only those with practical experience of the work can properly appreciate. It is therefore very creditable to Mr. G. T. Lane, the Curator—who, inasmuch as during the greater part of the year he was the only European trained horticulturist in the garden with only such limited help as one Overseer or at most two probationary Overseers could afford him, laboured under difficult conditions—that the general results have been so satisfactory. In addition to the routine work very briefly sketched above, several special pieces of work were undertaken. Considerable sections of the Wallich and Wight avenues were entirely renewed so as to prevent the flooding, which hitherto during the rainy season has made those avenues at times almost impassable. The large Palm House and the Orchid House were replanted. This work was entrusted to Mr. Mitra, the present senior Overseer on probation, who carried it out in very creditable fashion. East of the landing stage a considerable stretch of the river bank, which had been badly eroded, has been strengthened. This work of fortifying the river bank is, and will continue to be for several years, a serious tax on the garden resources, as much labour time and money, which normally would be devoted to the development of the garden proper have to be expended on these defensive operations. In November 1914 the old landing stage was replaced by a larger and stronger one, while its site was shifted a few yards to the west so as to bring it approximately in line with the Oreodoxa Palm avenue. So far this is satisfactory, but as far as the general population of Calcutta is concerned, there might for the greater part of the year as well be no landing stage at all, for the garden has not yet become one of the ordinary calling places of the Port Commissioners' Ferry steamers, while travelling by dinghie,—formerly a popular way of reaching the garden—is in these days of waggon-ferries, swift ferry steamers and ubiquitous launches, distinctly hazardous. As except to those who can afford to use a motor car, and not always to those, the land routes to the garden are a penance to traverse, it is no matter for wonder that the garden is far from being enjoyed by the people of Calcutta as much as it might be.

By the end of the year steps were taken towards the realization of a long contemplated project of the formation of an Economic Garden, in which would be displayed in appropriate groupings the indigenous economic species of India and those introduced or introducible thereto. More than seventy

years ago Griffith, in his report of the Garden for 1843, suggested, amongst several other excellent proposals, the formation of such a garden. Although there are not a few species of economic importance in the Garden at present, they are for the main part scattered indiscriminately and inconveniently all over its area. So a clearance is being made in the area in the north-west corner of the Garden formerly devoted to experimental agricultural cultivation. The establishment of the various scientifically staffed agricultural departments has relieved the Garden of the necessity of doing such work as these departments are now in a better position to undertake, but there is abundant justification for the Garden possessing as complete a living collection as possible of economic plants so arranged as to be readily studied by any one interested in their cultivation.

2. **Plant and Seed Exchange and Distribution.**—There is room only for the briefest reference to this important work. About 5,500 plants were received and over 40,000 distributed. The distribution of the latter was conducted on the lines mentioned in last year's report. About 400 packets of seed were received and over 800 packets distributed. In addition nearly 70 lbs. of seed of various species of trees and shrubs were sent to the new Delhi.

3. **Field Work, Herbarium and Library.**—Mr. C. C. Calder while officiating as Superintendent collected in the Eastern Himalaya. Mr. Ramaswami while officiating as Curator of the Herbarium explored the Nellore District of the Madras Presidency and brought back about 5,000 sheets of specimens. The Herbarium is as usual indebted to officers of the Forest Department and to other officers of Government and to private persons for important contributions. Space does not permit of detailed reference but the accessions represent collections made in Travancore, Madura, Burma, Assam and the Western and Eastern Himalayas. Extra-Indian contributions were received from the Bureau of Science, Philippine Islands ; the Royal Gardens, Kew (Siamese plants) ; the Paris Herbarium (Chinese plants) ; and the United States Department of Agriculture (grasses). Affairs in Europe have interfered with the distribution of duplicates to that continent but over 2,000 specimens have been distributed to herbaria elsewhere.

As usual a large number of identifications were made on behalf of institutions and individuals and numerous references from all over the world on purely botanical and economic questions were dealt with.

Library work proceeded on normal lines throughout the year.

4. **Publications.**—No part of the Garden Annals appeared during the year, but there are under preparation three contributions to that publication, viz., a continuation of Dr. Beccari's fine work on the Palms, a monograph of the genus *Dioscorea* by Mr. I. H. Burkill, and an account of the Indian Euphorbias by the Superintendent. The last while on leave contributed descriptions of new species of *Euphorbiaceæ* of India and New Guinea to the Kew Bulletin and the Dutch publication " Nova Guinea " respectively.

5 **Financial.**—The revenue amounted to Rs. 542-9. Under establishment, travelling allowance and regular contingencies there was an aggregate saving of Rs. 3,952-4-3 of which Rs. 3,718-8-10 were under establishment.

CALCUTTA GARDENS.

These gardens comprised until the end of 1914 the Eden Gardens, Curzon Gardens, Dalhousie Square Garden, and the grounds of Hastings House, but from January 1915 the grounds of Hastings House have been under the Education Department.

There is nothing special to chronicle regarding the work of these gardens which has followed the usual lines during the year, albeit under difficulties as regards staff, there having been no fewer than four different officers performing the duties of Assistant Curator of the gardens during the year.

It is a matter for regret that efforts of the staff to keep some of these gardens—such as the Dalhousie Square one—in a proper state are to a considerable extent annulled by the indifference of the public to misuse of

public property, as evidenced by the ineradicable practices of treading down the grass bordering the paths—which are now broad enough for all pedestrian traffic—and making disfiguring short cuts across the lawns. So long as the Dalhousie Square Garden is permitted to be used more as a short cut from one side of the square to another than as a garden, so long are the disfigurements referred to likely to persist, despite all the efforts of the garden staff to prevent them.

* * * * * * *

The revenue from the Calcutta gardens amounted to Rs. 415-3-3. There was a saving of Rs. 3,556-11-7 on the total allotment of Rs. 43,204 for all the Calcutta gardens.

LLOYD BOTANIC GARDEN, DARJEELING.

* * * * * * *

Except for an exceptionally dry period from November 1914 to January 1915, weather conditions were normal, the rainfall being 126·25 inches. In addition to the routine work of the garden, 219 species and varieties of trees and shrubs were planted out. Species from China and Japan are most adaptable, those from the Antipodes coming next. Nearly 11,000 plants, about 3,000 bulbs and tubers and over 3,400 packets of seed were distributed, the last exclusive of seeds indigenous to the Eastern Himalaya which were transferred to the Royal Botanic Garden Calcutta for distribution. Besides purely horticultural or distributional work Mr. Cave has made several investigations of economic importance on behalf of departments, institutions and individuals, and has supplied information on such questions as the growth, propagation and pests of *Citrus*, the occurrence of locally grown coniferous wood suitable for pencil and match making, the use of *Hedychium coronarium* as a source of paper, etc. Several pounds of seed of *Dendrocalamus Hamiltoni* a bamboo, were supplied to the United States Agricultural Department for planting on the landslide of the Culebra Cut of the Panama canal.

Outside the Lloyd Botanic Garden Mr. Cave has advised and given much of his time to supervision in connection with the grounds of Government House, the Municipal reafforested areas, the three cantonments and the work of the Darjeeling Improvement Fund Committee. There was a saving of Rs. 235-10 on the total allotment for the Lloyd Botanic Garden.

*Inclusive of 1,411,093 maunds of salt issued under the credit system. Besides this quantity, 32,610 maunds of salt were issued under the credit system to inland bonded warehouses.

Compared with the corresponding quarter of the previous year and the same quarter of 1912-13, importations were less by 33·1 per cent. and 17·5 per cent., respectively, and clearances were less by 26·8 and 22·6 per cent. As compared with the corresponding period of the previous year, the decreased imports from Spain, Salif, the United Kingdom, and Hamburg and Bremen, and the increased imports from Aden and Madras, are especially noticeable.

4. Table II shows the quantity of sea-imported salt remaining in the warehouses at the close of the quarter as compared with the preceding four quarters :—

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 7th June 1915.

Summary.—During the week under report general rain fell throughout the province. The fall was excessive in some of the Eastern Bengal districts but light to moderate elsewhere. The heavy showers interfered with the agricultural operations and caused damage to some extent to the standing crops on lowlands. The sowing of the autumn crops is practically over. Preparation of lands for the next winter rice crop continues; the seedlings are being reared in the nurseries in places. Cattle-disease is reported from ten districts. The average price of common rice for the province has risen by about 0·3 per cent., as compared with that of the previous week.

II. The draft will be taken into consideration on or after the 22nd July 1915 and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

Draft Rules.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations notified in the Schedule II attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class I, whether laden or empty shall, for the purposes of these rules, be determined by the following measurements :—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches ; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows :—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll-station of entry with a ticket on which the name of the serang

manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain a permit for so doing in Form No. 1 from the Toll Collector of the toll-station of entry. In such cases the Toll Collector will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the Collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. (I) In the case of steamers and flats falling under the latter portion of rule 9 a copy of the traffic manifest must be handed in at the exit toll-station, a receipt for which in Form No. 2 will be issued by the Toll Collector to the person in charge of the vessel, in such cases no ticket in the usual form will be issued. If the traffic manifest is not produced at the exit toll-station the procedure as laid down in rules 6 and 8 will be adopted

(II) The traffic manifest or the receipt for the same may be demanded by any navigation officer while the vessel is within the limits of the Bhil channels between the Manickdah entrance and Chur Maguria.

11. The term "Navigation officer" as used in rule 6 shall include the Collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer of the Public Works Department in charge of the subdivision or section within which the channel is situated.

Draft Rules.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations notified in the Schedule II attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below:—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class I, whether laden or empty shall, for the purposes of these rules, be determined by the following measurements:—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows:—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll-station of entry with a ticket on which the name of the serang

manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain a permit for so doing in Form No. 1 from the Toll Collector of the toll-station of entry. In such cases the Toll Collector will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the Collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. (I) In the case of steamers and flats falling under the latter portion of rule 9 a copy of the traffic manifest must be handed in at the exit toll-station, a receipt for which in Form No. 2 will be issued by the Toll Collector to the person in charge of the vessel, in such cases no ticket in the usual form will be issued. If the traffic manifest is not produced at the exit toll-station the procedure as laid down in rules 6 and 8 will be adopted

(II) The traffic manifest or the receipt for the same may be demanded by any navigation officer while the vessel is within the limits of the Bhil channels between the Manickdah entrance and Chur Maguria.

11. The term "Navigation officer" as used in rule 6 shall include the Collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer of the Public Works Department in charge of the subdivision or section within which the channel is situated.

12. Duplicates of lost tickets will be granted by the Toll Collector who originally issued the ticket on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and a minimum of four annas. The duplicate will be issued only when the Toll Collector is satisfied concerning the identity of the boat.

13. No person shall wilfully or negligently allow a vessel to sink in the channel.

14. (1) In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(2) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take action at once to remove the same.

15. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay to the Collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

16. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the Collector of tolls, without payment of tolls.

17. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

18. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta and local newspaper.

19. *Lights and Signals.*—All vessels, whether travelling or moored in the channel, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule.

20. Every vessel proceeding in the channel must limit her speed to six miles an hour from the 15th October to the 10th July, and to eight miles an hour from the 11th July to the 14th October.

21. For any infringement of rule 6, 7, 8, 9, 10, 13, 14, 15, 17, 19 or 20 the person in charge of the vessel or other persons in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

Twelve scholarships of Rs. 10 a month, each tenable for one year, have been established. *Four* of these will be open to competition among students of the First-year Class, *four* among the students of the Second-year Class, and *four* among the students of the Third-year Class. The scholarships in the First-year Class will be awarded towards the end of September, upon the results of the College test to be held at that time; those in the Second-year Class will be awarded upon the results of the Preliminary Examination in Law, and those in the Third-year Class upon the results of the Intermediate Examination in Law. All these scholarships take effect retrospectively from the beginning of the session. Twenty-four scholarships of Rs. 6 a month tenable for one year will also be awarded from the endowment established by the Maharaja Sir Manindrachandra Nandy of Cossimbazar. Students who have graduated from the Krishnath College, Berhampur, will have a preferential claim to these scholarships. But no scholarship will be awarded to a student who has not satisfactorily acquitted himself at the University or College Examination, as the case may be.

Provision has been made for the residence of students who do not reside with their parents or *bonâ fide* guardians approved by the Principal of the College. There is accommodation for the residence of 150 students in that portion of the College premises known as the Hardinge Hostel. For students in excess of this number, separate houses have been engaged, sufficient to accommodate another two hundred. A separate house has also been engaged for Mahomedan students. As accommodation in the Hardinge Hostel and in the attached messes is strictly limited, students are advised to apply before the 26th June, 1915.

Students are recommended in all cases to take their admission before the 5th July, 1915.

To the College is attached an extensive Law Library containing numerous sets of Reports and Text-books. The Library is divided into two sections—(A) for reference, (B) for lending. Books in Section (A) may be consulted by students at any time from 7 A.M. to 7 P.M. Books in Section (B) may be borrowed by students; no deposit is required if one volume is borrowed. Those who deposit Rs. 5 are allowed to borrow two volumes at a time.

All applications for admission are to be addressed to the Principal University Law College, Senate House, Calcutta. Further information as also a detailed programme of the work and rules for residence in the Hardinge Hostel may be obtained on application to the Vice-Principal, University Law College, Senate House, Calcutta.

II. The draft will be taken into consideration on or after the 22nd July 1915 and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

Draft Rules.

1. Every vessel passing through the line of navigation known as the Madaripur Bhil channel shall stop at the prescribed toll-stations notified in the Schedule II attached for the purpose of assessment, or check, of toll charges.

2. For the purposes of these rules, vessels other than rafts, timbers, bamboos or other floating material shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build.

Class II.—To include all steamers, flats and barges, and such other square-built boats as should, in the opinion of the Collector of Tolls, be included.

3. The net tonnage of every vessel of class I, whether laden or empty shall, for the purposes of these rules, be determined by the following measurements :—

(A) The product of one-quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the interior greatest depth from the water-line to the bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

(B) The measurement of the length is to be made in feet, rejecting inches; the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting portions of less than a quarter of a foot.

(C) The maundage on which tollage shall be charged shall be a simple multiple of 12½ maunds, rejecting any remainder by which the maundage, calculated as above, may exceed such simple multiple.

4. For vessels in class II the tonnage shall be determined as follows :—

The tonnage of steamers shall be the registered tonnage as given in the certificate of survey of the steamer.

Toll shall be levied on the actual weight of cargo carried on steamers, flats, barges and other vessels included in this class, as declared in the manifests.

When the registered tonnage of a steamer, or the manifest for cargo of a flat is not available, the tonnage will be taken as arrived at under rule 3.

For square-built boats the total maundage, as determined under rules for class I, shall be increased by half, and for steamers one-third of the total maundage shall be deducted for engine space.

5. Every vessel except as exempted under rule 10 shall be furnished at the toll-station of entry with a ticket on which the name of the serang

manjhi or other person in charge of the vessel, the date of entry, the maundage of the vessel, the nature and weight of the cargo it contains, the amount of toll charged and the number of days for which the ticket will remain current shall be entered.

6. This ticket may be demanded and checked by any navigation officer while the vessel is within the toll-limits of the Bhil channel and must be kept on board and at hand for that purpose. The ticket must be given up at the exit toll-station. If the ticket is not produced on demand by a canal officer, such officer shall assess the amount of toll payable and the vessel will be liable to seizure and detention under the provisions of section 9 of the Act until such sum is realized.

7. Vessels leaving the channel between two toll-stations shall obtain a permit for so doing in Form No. 1 from the Toll Collector of the toll-station of entry. In such cases the Toll Collector will issue a ticket in the usual form and also collect the same before the vessel is permitted to proceed.

8. A vessel, which has been detained under these rules or under section 9 of the Act, may not be removed from the channel without the order of the Collector of tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

9. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed. Provided that the Collector of tolls appointed under section 8 of the Act may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

10. (I) In the case of steamers and flats falling under the latter portion of rule 9 a copy of the traffic manifest must be handed in at the exit toll-station, a receipt for which in Form No. 2 will be issued by the Toll Collector to the person in charge of the vessel, in such cases no ticket in the usual form will be issued. If the traffic manifest is not produced at the exit toll-station the procedure as laid down in rules 6 and 8 will be adopted

(II) The traffic manifest or the receipt for the same may be demanded by any navigation officer while the vessel is within the limits of the Bhil channels between the Manickdah entrance and Chur Magnria.

11. The term "Navigation officer" as used in rule 6 shall include the Collector of tolls appointed under section 8 of the Act, and the officer, or the subordinate duly authorised by such officer of the Public Works Department in charge of the subdivision or section within which the channel is situated.

12. Duplicates of lost tickets will be granted by the Toll Collector who originally issued the ticket on payment of a fee of one-fourth of the amount of toll payable, subject to a maximum of one rupee and a minimum of four annas. The duplicate will be issued only when the Toll Collector is satisfied concerning the identity of the boat.

13. No person shall wilfully or negligently allow a vessel to sink in the channel.

14. (1) In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

(2) If, three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take action at once to remove the same.

15. When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the toll offices, or other prominent places, calling on those concerned to pay to the Collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Act.

16. The purchaser of a vessel sold under the provisions of section 9 of the Act shall have the right to take it out of the channel on the day of purchase, or within such time as may be allowed by the Collector of tolls, without payment of tolls.

17. When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

18. If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 16 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta and local newspaper.

19. *Lights and Signals.*—All vessels, whether travelling or moored in the channel, must, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed in the first paragraph of this rule.

20. Every vessel proceeding in the channel must limit her speed to six miles an hour from the 15th October to the 10th July, and to eight miles an hour from the 11th July to the 14th October.

21. For any infringement of rule 6, 7, 8, 9, 10, 13, 14, 15, 17, 19 or 20 the person in charge of the vessel or other persons in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a pay for any continuing infringement.

REPORTS ON THE WORKING OF THE SHIPPING OFFICES IN BENGAL FOR THE YEAR 1914-15.

NOTIFICATION,

The 28th June 1915.

No. 79 Marine.—The following Annual Reports on the working of the Shipping Offices in Bengal for the year 1914-15 are published for general information.

F. A. A. COWLEY.

Secy. to the Govt. of Bengal.

No. [illegible], dated Calcutta, the 1st June 1915.

From—The Shipping Master, Calcutta,

To—The Secretary to the Government of Bengal, Marine Dept.

I HAVE the honour to submit herewith for the information of Government the Annual Report of the Shipping Office for the year 1914-15, and in doing so, to remark that the general features of the report for the current year have been considerably influenced by the events of the present war.

The number of seamen shipped and discharged during the year under European and Indian Foreign Articles, together with the figures for the previous year, are shown in the statement below. Fuller particulars will be found in Appendix I.

ARTICLES.	1913-14.	1914-15.	Increase.	Decrease.
Shipped—				
European	832	1,170	338	.....
Indian	47,315	43,790	.....	3,525
Total ...	48,147	44,960	338	3 525
Discharged—				
European	1,018	1,427	409	.....
Indian	43,536	38,368	.....	5,168
Total ...	44,554	39,795	409	5,168

It will be observed from the above figures that the number of seamen shipped and discharged on European articles has increased, while those shipped on Indian articles show a large decrease, which is due to the dislocation in shipping and the smaller number of vessels visiting this port owing to the war.

The number of Eurasians shipped on European and Indian articles is 81 and 475 respectively, being an increase of 5 under the former and a decrease by 9 under the latter head in comparison with the figures of the previous year.

The following figures represent the number of seamen shipped and discharged at the various Consulates with the nationalities specified, detailed particulars of which are given in Appendix II These figures are not included in Appendix I.

Nationalities.	Shipped.	Discharged
British	3	3
Chinese	7	1
Scandinavians	...	...
French	...	..
Russians	7	12
Arabs	22	11
Danes	3	1
Greeks	...	..
Americans	3	2
Japanese	6	1
Malays	...	...
Javanese	1	...
Italians	6	6
Cingalese	1	1
Africans	1	1
Total ...	60	39

The number of European and Indian seamen that deserted and failed to join their vessels during the year was 123 and 512. The majority were, however, replaced by substitutes.

Repatriation of distressed seamen.—Fifty-two seamen were repatriated on account of sickness and injury, one owing to paucity of employment, six on termination of their agreements, two owing to their steamers having been sold, and four because of their vessels being captured by the British, totalling in all 65 seamen.

Relief to seamen.—The number of seamen afforded relief in the workhouse during the year was 10 at a cost of Rs. 323-8. Of these, seven obtained employment, one absconded, one was sent to hospital, and one is still in the workhouse. Twenty-one seamen were relieved in the Alms House by the District Charitable Society at a cost of Rs. 1,452-8. In addition to relief in the shape of clothes and payment of boarding charges, etc., grants of money were made to the extent of Rs. 300 to 400. One hundred and thirteen destitute seamen were admitted into the Sailors' Home from Consuls and other societies. A loss of Rs. 805-8 was sustained by the Sailors' Home owing to seamen not being able to pay their board. The number of distressed native seamen assisted from the Shipwrecked Mariners' Fund was 14 at a cost of Rs. 168-6. A sum of Rs. 2,165-2 was incurred as incidental to war expense for the conveyance of 164 distressed seamen of ships which were sunk by the German cruiser *Emden*.

Complaints.—No reports of any consequence were made during the year.

European seamen's money-orders.—A sum of £593-16-8 was remitted by seamen to their relatives in England, compared with £473 of the previous year.

Administration of trust funds.—The transactions of funds held in trust during the year under different heads are shown in Appendix III. Stamped papers to the value of Rs. 15-12 were used on account of securities in disposing of estates of deceased seamen. The balance of accumulated funds at the commencement of the year was Rs. 17,735, and the receipts were Rs. 49,931. The payments were Rs. 46,609, and a sum of Rs. 3,433 lapsed to Government, leaving a balance of Rs. 17,624 at the close of the year.

Transactions with Board of Trade.—Transactions with the Board of Trade amounted to Rs. 18,434, and compared with the figures of the previous year, show an increase of Rs. 8,910.

Financial result.—The figures below give the financial result of the office for the last five years :—

Year.		Receipts.	Disbursements.	Savings.
		Rs.	Rs.	Rs.
1910-11	...	95,802	57,463	38,339
1911-12	...	1,05,571	62,475	43,096
1912-13	...	1,18,739	65,009	53,730
1913-14	...	1,23,047	69,875	53,172
1914-15	...	1,04,854	61,509	43,345

It will be observed from the above figures that there is a decrease of Rs. 9,827 in the savings in comparison with the figures of the previous year, which is due to less shipping and discharging being carried on as the effect of the war on commerce.

Expenditure.—Detailed particulars of the receipts and expenditure are exhibited in Appendix IV. On referring to this appendix it will be seen that the expenditure, as compared with the year preceding, has decreased by Rs. 8,366, due chiefly to the smaller amount of overtime earned during the year under review—a distinct reflex effect of the war on shipping—and due to reduced expenditure under the head "Cost of forms."

Administrative changes.—During the year under review the Government having approved Commander C. J. C. Kendall's application to be relieved of the duties of the Port Officer and Shipping Master, Commander G. N. Forteath, R.I.M., Deputy Port Officer, took over temporary charge on 5th June 1914, until Commander D. F. Vines, R.I.M., who was appointed Port Officer and Shipping Master, arrived on 11th July.
